ABOUT SKILL DEVELOPMENT CENTRE (SDC)

Skills and knowledge are the driving forces of economic growth and social development of a country. In rapidly growing economies like India with a vast and ever-increasing population, there is a severe shortage of highly-trained, quality skilled resources, while on the other; large sections of the population possess little or no job skills.

Skill Development Center , University of Pune is a progressive and student friendly initiative of University of Pune started w.e.f March 2014 with a well intended objective to eliminate disconnect between Academics and the reality in the global job market. Skill Development Center will create an opportunity culture where students have an opportunity to excel and are encouraged to realize the vision and long term objectives.

WORKSHOP PREAMBLE

This workshop is our first initiative towards providing students with training and learning to make them self sufficient. Besides providing skills we also believe that a youth should has the capability of an entrepreneur, he should be capable of starting its own business. In this direction we hereby propose for the following workshop to impart knowledge to students as to how to initiate with a business idea and how to convert it into a functional plan.

The workshop is designed to have a comprehensive orientation and understanding about the realistic perspectives of entrepreneurship intuition amongst beneficiaries / youths/ students.

The main objective of the workshop is to make the concept & process of entrepreneurship into realistic aspect among youths & student workforces.

Another objective is to mold participants towards a systematic process of Entrepreneurship so as to become enterprising.
