Greetings from TechnoXian!

We are thrilled to invite your esteemed institution to be part of the TechnoXian Membership Program, a global initiative to inspire and cultivate the next generation of innovators through robotics and advanced technology.

Imagine your students creating state-of-the-art robots, competing on international stages, and earning global recognition for their ingenuity. TechnoXian offers them this once-in-a-lifetime opportunity.

WHY ROBOTICS?

Robotics is not just the future--it's the present. It fosters critical thinking, problem-solving, and teamwork, preparing students for cutting-edge careers in technology and innovation. By joining the TechnoXian Membership Program, you empower students to:

- * Build and program robots from scratch.
- * Develop hands-on skills through interactive workshops.
- * Represent their school internationally at the TechnoXian Robotics World Championship, competing with teams from over 180 countries this year.

MEMBERSHIP PLANS: (FOR DETAILED INFORMATION CLICK HERE [1])

BASIC INDIVIDUAL MEMBERSHIP - _INR 950/- + GST (USD 20)_

- * Access to live virtual training sessions on robotics and programming.
- * Opportunity to participate in district, regional, and national competitions.
- * Technical support and mentorship from global experts.

PREMIUM INDIVIDUAL MEMBERSHIP - _INR 2,500/- + GST_

- * Everything in Basic Membership, PLUS:
- * Free membership kits (T-shirt and branded gifts).
- * 10 free advanced technology workshops annually.
- * Access to sponsorship opportunities and global innovation platforms.

SCHOOL PREMIUM ROBOCLUB - _MINIMUM 10 STUDENTS AT INR 500/- PER STUDENT_

- * Form a Robotics Club at your institution to gain exclusive benefits:
- * Eligibility to participate in the TechnoXian Robotics World Championship, where schools are ranked internationally.
- * Official branding and recognition as a TechnoXian RoboClub.
- * Sponsorship opportunities, technical support, and access to robotics components and equipment.
- * Representation of your school or college at an international level with the chance to compete alongside 800+ teams and over 22,000 participants globally.

ADDITIONAL HIGHLIGHTS:

* Open Membership Option: Students can join TechnoXian individually without being part of a RoboClub. However, to participate in the World Robotics Championship, they must be members of their school's RoboClub.

* Global Representation: Last year, teams from 42 countries competed in the championship. This year, 180 countries are anticipated, including participants from India, USA, UAE, Germany, South Korea, and more.

* Competitions include Robo Soccer, Drone Racing, Maze Solver, Sumo Bot, Innovations, and many more thrilling categories.

WHY JOIN?

* International Recognition: Backed by AICRA and the International Federation of e-Sports, the program ensures your institution gains global exposure.

* Help students develop essential skills for the future.

* Inspire pride and collaboration within your school community.

* Be part of a global robotics revolution that garners the attention of millions worldwide.

Let's make your institution a pioneer in innovation and a global leader in robotics education.

Register your RoboClub today and take the first step toward international recognition.

Warm regards

Ankur Pandey

Buisness Executive
