## COURSE DESIGN: ME TO MANY

Rationale:

Most of the U.G. students are on the last leg of their formal education—many will seek jobs after completing their graduation or begin their own enterprises. However, many of these students have had little opportunity to look at themselves positively, build their capacities, develop their value system, moral qualities, and right attitudes. These elements are so crucial for the youth to have holistic visions for their life and meaningful careers and contribute to the development of world around them. This Course will provide such opportunity to the youth.

Course Highlights:

### ATTITUDES TO CARRY FORWARD & ATTITUDES TO DROP BEHIND:
