GEOGRAPHY

GGUT-111 : Principles of Geomorphology
(2019 Pattern)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question No. 1 is compulsory.*
- 2) *Solve any five questions from question No. 2 to question No. 7.*
- 3) *Questions 2 to 7 carry equal marks.*
- 4) *Use to map stencil is allowed.*

Q1) Solve any **Five** of the following (Around 20 words each) **[10]**

- a) Which are three stages of Davisian cycle of erosion?
- b) Name types of mass movements.
- c) Characteristics of sea waves.
- d) Fluvially sculpted landforms in desert.
- e) Order of landforms.
- f) Elaborate geomorphology.

Q2) a) What is Geologic time scale? What are its major segments? **[7]**

b) Explain interior of the Earth. **[5]**

Q3) a) What are the drawbacks of Wegener's continental drift theory? **[7]**

b) Write in brief about physical weathering processes. **[5]**

P.T.O.

- Q4)** a) What is the Davisian model of hill slope development? [7]
b) What are types of glacial erosion? Describe its erosional landforms. [5]
- Q5)** a) Write a note on fluvially sculpted landforms with diagrams? [7]
b) What is wave refraction? [5]
- Q6)** a) Describe depositional environment of glaciers with diagram. [7]
b) Explain theory of isostasy. [5]
- Q7)** Write short notes on any **Two** of the following. [12]
a) Characteristics of primary seismic waves.
b) Sea floor spreading.
c) Landforms associated with convergent plate boundaries.

GEOGRAPHY

**GGUT 112 : Principles of Climatology
(2019 Pattern) (CBCS) (Semester - I)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Q.2 to Q.7 carry equal marks.*
- 4) *Use of map stencil is allowed.*

Q1) Solve any five of the following: **[10]**

- a) Define weather.
- b) define meteorology.
- c) Mention any two causes of ozone layer depletion.
- d) Which are the units used for the measurements of the wind speed.
- e) Define geostrophic wind.

Q2) a) Explain the composition of atmosphere in detail. **[7]**

b) Discuss on types of aurora in detail. **[5]**

Q3) a) Give an account of the distribution of atmospheric pressure. **[7]**

b) Define wind. Explain the factors affecting on wind in detail. **[5]**

Q4) a) Illustrate primary circulation of the atmosphere. **[7]**

b) Discuss the effects of jet stream on surface weather condition. **[5]**

P.T.O.

- Q5)** a) Define humidity and discuss its method of measurement. [7]
b) Explain the factors effecting on condensation. [5]
- Q6)** a) Illustrarte the various types of all masses. [7]
b) What is atmospheric stability? Explain the absolute instability in detail.[5]
- Q7)** Write short notes on any two of the following: [12]
a) Evolution of earth's atmospher.
b) Gradient wind.
c) Cold front.

GEOGRAPHY

GGUT - 113 : Principles of Economic Geography

(2019 Pattern) (Credit System)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Que. 2 to Que. 7.*
- 3) *Questions 2 to 7 carry equal marks.*

Q1) Solve any five of the following :

[10]

- a) Define Economic Geography.
- b) Which are the three types of economic activities?
- c) What is the definition of resources?
- d) Name any two under develop countries.
- e) Write any two advantages of road transport.
- f) What is international trade?

Q2) a) Describe recent trends in economic geography.

[7]

b) Discuss the technical factors influence on location of economic activities.**[5]**

Q3) a) Explain economic factors influence on location of economic activity.[7]****

b) Describe the importance of non-conventional energy resources. **[5]**

Q4) a) Describe the classification of resources.

[7]

b) Explain the means of communication.

[5]

P.T.O.

- Q5)** a) Describe in detail Rostow's model. [7]
b) Explain the types of trade. [5]
- Q6)** a) Explain the role of IT industry in economic development in Maharashtra.[7]
b) Discuss the advantages of green revolution in India. [5]
- Q7)** Write short notes on any two of the following : [12]
a) E-commerce
b) Impact of privatization on economic development.
c) Regional disparities in Maharashtra.

GEOGRAPHY

GGDT-114 : Principles of Population and Settlement
Geography

(2019 Pattern) (CBCS) (Semester - I)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Questions 2 to 7 carry equal marks.*
- 4) *Use of map stencil is allowed.*

Q1) Solve any five of the following :

[10]

- a) What is fertility?
- b) What is population geography?
- c) What is dependency ratio?
- d) Enlist social factors affecting distribution of population.
- e) Define urban sprawl.
- f) Define CBD.

Q2) a) Define urbanization and explain the stages of urbanization.

[7]

b) Explain the site and situation aspect in human settlement.

[5]

Q3) a) Define literacy and explain the measures of literacy.

[7]

b) Describe the malthus theory of population.

[5]

Q4) a) Describe the factors affecting dispersion and nucleation.

[7]

b) Explore trend and level of urbanization in India.

[5]

P.T.O.

- Q5)** a) Describe various patterns of settlement. [7]
b) Explain the concept of aging of populations. [5]
- Q6)** a) Explain the physical factors affecting distribution of population. [7]
b) Describe the concept of immigration and emigration. [5]
- Q7)** Write short notes on any two of the following : [12]
a) Approaches to the study of population geography.
b) Rank-size rule
c) Age and sex structure

GEOGRAPHY

GGUT-121 : Geo Informatics - I

(2019 Pattern) (Semester-II) (CBCS)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Questions 2 to 7 carry equal marks.*
- 4) *Use of map stencil is allowed.*

Q1) Solve any five of the following.

[10]

- a) Define Geoinformatics.
- b) What is map algebra?
- c) Explain concept of focal operation.
- d) State objectives of GIS.
- e) What is geodatabase?
- f) Explain ordinal data.

Q2) a) Describe the logical relationships in a database.

[7]

b) Explain the editing errors.

[5]

Q3) a) Describe the nominal database.

[7]

b) Explain manual digitization.

[5]

Q4) a) Give a brief account of automatic digitization.

[7]

b) What is digitization? Explain the different type of digitizers.

[5]

P.T.O.

- Q5)** a) Discuss the map algebra in data analysis. [7]
b) Distinguish between raster and vector data models. [5]
- Q6)** a) Give an account of the potential of GIS. [7]
b) Explain the spatial database. [5]
- Q7)** Write short notes on any two of the following. [12]
a) Non spatial data.
b) Quad tree tessellation.
c) Spatial information theory.

GEOGRAPHY

GGUT-122 : Coastal Geomorphology

(2019 Pattern) (Semester - II) (Credit 4)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Question 2 to 7 carry equal marks.*
- 4) *Use of map stencil is allowed.*

Q1) Solve any five of the following :

[10]

- a) Define diurnal tide.
- b) Define wave length.
- c) What is wave refraction?
- d) Define stumps.
- e) What is coastal current?
- f) Define shore platforms.

Q2) a) Explain the coastal environment with suitable examples.

[7]

b) Explain the various types of waves.

[5]

Q3) a) Elaborate the characteristics of tide dominated sea coast.

[7]

b) Discuss fossil beach ridges and beach rocks as indicators of former sea level changes.

[5]

Q4) a) Explain the wind and tide induced currents in detail.

[7]

b) Illustrate grain size characteristics of coastal sediments.

[5]

P.T.O.

- Q5)** a) Explain the morphology and hydrodynamics of estuaries and tidal flats. [7]
b) Discuss on geos and blow holes with suitable examples. [5]
- Q6)** a) Illustrate coastal erosion and progradation in detail. [7]
b) Explain in detail local case studies on coastal hazard management. [5]
- Q7)** Write short notes on any two of the following : [12]
a) Spring and neap tide
b) Wetlands
c) Coastal regulation zones

GEOGRAPHY
GGUT-123 : Synoptic Climatology
(2019 Pattern) (Semester - II) (Credit-4)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Questions 2 to 7 carry equal marks.*

Q1) Solve any five of the following.

[10]

- a) Explain the term climatological synthesis.
- b) Define fronts.
- c) What is tropical cyclone?
- d) What is a cold wave?
- e) Enlist the type of fogs.
- f) Write any two applications of synoptic climatology.

Q2) a) Define synoptic climatology. Explain the scope of synoptic climatology in detail. **[7]**

b) Explain the observing system of weather data by India Meteorological Department. **[5]**

Q3) a) Explain the formation and structure of tropical cyclone. **[7]**

b) Describe the synoptic approach of synoptic climatology. **[5]**

P.T.O.

- Q4)** a) Discuss air masses of Europe. [7]
b) Explain the idealized weather of a wave cyclone. [5]
- Q5)** a) Define cloud and classify the clouds in detail. [7]
b) Describe the formation of warm fronts with suitable diagram. [5]
- Q6)** a) Explain the methods of weather forecasting. [7]
b) Discuss the application of synoptic climatology in marine activities. [5]
- Q7)** Write short notes on any Two of the following. [12]
a) Thunderstorm.
b) Ross by waves.
c) Precipitation processes.

GEOGRAPHY
GGUT - 124 : Agricultural Geography
(2019 Pattern) (Semester - II) (CBCS)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates :

- 1) *Q.1 is compulsory.*
- 2) *Solve any five questions from Q2 to Q7.*
- 3) *Questions 2 to 7 carry equal marks.*
- 4) *Use of map stencil is allowed.*

Q1) Solve any five of the following. **[10]**

- a) What is a drought?
- b) Define agriculture.
- c) What is commodity approach?
- d) Define commercial grain farming.
- e) Give any four characteristics of shifting cultivation.
- f) Mention crops in panjab - Haryana region.

Q2) a) Explain the interdisciplinarity nature of agricultural geography. **[7]**

b) Write in brief about Weaver's method of crop combination. **[5]**

Q3) a) Describe the physical factors determinants of agricultural pattern. **[7]**

b) Explain Agro tourism. **[5]**

Q4) a) Explain the role of irrigation in agricultural development. **[7]**

b) Distinguish between mixed farming and shifting cultivation. **[5]**

P.T.O.

- Q5)** a) Describe the significance of agriculture in the world. [7]
b) Give a brief information about agricultural problems with reference to India. [5]
- Q6)** a) Describe the recent changes in Indian agriculture. [7]
b) Explain characteristics of Indian agriculture. [5]
- Q7)** Write a short note on any two of the following. [12]
a) Waste land management.
b) Agricultural productivity in India.
c) Agro - forestry.

GEOGRAPHY

**GGUT - 125 : Population Geography
(2019 Pattern) (CBCS) (Semester - II)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Q.1 is compulsory.*
- 2) *Solve any Five questions from Q.2 to Q.7.*
- 3) *Q.2 to Q.7. carry equal marks.*

Q1) Solve any Five of the following. [10]

- a) Define migration.
- b) What is sample registration survey?
- c) Give two examples of internal migration.
- d) What is NFHS data?
- e) What is international migration?
- f) What is national sample survey?

Q2) a) Discuss the factors affecting on mortality. [7]

b) Describe the push factors of migration. [5]

Q3) a) Explain the determinants of migration. [7]

b) Discuss the optimum population with suitable examples. [5]

Q4) a) Discuss the composition of population. [7]

b) Discuss the relation between population and development. [5]

Q5) a) Critically examine the demographic transition model. [7]

b) Describe the types of migration. [5]

Q6) a) Explain the factors affecting on population distribution. [7]

b) Describe the sources of population data. [5]

Q7) Write short note on any two of the following. [12]

- a) Scope of population geography.
- b) Population policy of China.
- c) Human Development Index.

GEOGRAPHY

**GGUT - 126 : Fluvial Geomorphology
(2019 Pattern) Semester - II)(Credit-4)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Q.1 is compulsory.*
- 2) *Solve any Five questions from Q.2 to Q.7.*
- 3) *Q.2 to Q.7. carry equal marks.*

Q1) Solve any Five of the following. [10]

- a) Law of allometric growth.
- b) Fluvial geomorphology as a branch of geomorphology.
- c) Which landforms are linked with floodplains?
- d) River metamorphosis.
- e) What is Manning's equation?
- f) Explain stream power with formula.

Q2) a) Explain fluvial erosional processes. Which are the prominent erosional landforms of Bedrock Rivers? [7]

b) How laminar flow is different from turbulent flow? Explain with diagram. [5]

Q3) a) What is channel pattern? Which are various kinds of channel patterns? What are the characteristics of meandering channel pattern? [7]

b) What is instantaneous flood hydrograph? Which are its segments? [5]

Q4) a) How sediment is transported in river channels? Describe diagrammatically. [7]

b) What is the difference between direct observations and historical information? How it forms as evidence of river metamorphism? [5]

Q5) a) What is Glock's model? [7]

b) Give diagrammatic explanation of overland flow. [5]

Q6) a) What is difference between bedrock and alluvial rivers? What are their characteristics? [7]

b) Nature of fluvial geomorphology. [5]

Q7) Write short notes on any two of the following. [12]

- a) Downstream hydraulic geometry.
- b) Formation of river deltas.
- c) Step and pool sequences.

GEOGRAPHY

**GGUT - 127 : Monsoon Climatology
(2019 Pattern) (CBCS) (Semester - II)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Q.1 is compulsory.*
- 2) *Solve any Five questions from Q.2 to Q.7.*
- 3) *Q.2 to Q.7. carry equal marks.*

Q1) Solve any Five of the following. **[10]**

- a) What is Monsoon?
- b) What is Easterly Jet?
- c) What do you mean by withdrawal of monsoon?
- d) What is walker circulation?
- e) What is short forecasting?
- f) What is MONEX?

Q2) a) Describe the East Asian monsoon. **[7]**

b) Explain the model of monsoon on rotating Earth. **[5]**

Q3) a) Explain the driving mechanism of Indian monsoon . **[7]**

b) Discuss El-Nino. **[5]**

Q4) a) Describe the parametric model of monsoon forecasting. **[7]**

b) Explain the mid-tropospheric disturbances. **[5]**

Q5) a) Discuss different factors used for monsoon forecasting. **[7]**

b) Explain the historical background of Indian monsoon. **[5]**

Q6) a) Discuss the classical theory of origin of Indian monsoon. **[7]**

b) Give an account of air pressure pattern over India during monsoon. **[5]**

Q7) Write short notes on any two of the following. **[12]**

- a) Heat low.
- b) Withdrawal of monsoon.
- c) Indian Ocean Dipole (IOD).

GEOGRAPHY

**GGUT - 128 : Industrial Geography
(2019 Pattern) (Semester - II) (credit-4)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Q.1 is compulsory.*
- 2) *Solve any Five questions from Q.2 to Q.7.*
- 3) *Q.2 to Q.7. carry equal marks.*

Q1) Solve any Five of the following. **[10]**

- a) Define the term 'Industrial Geography'?
- b) What is mean by centralization of industries?
- c) What is agglomeration?
- d) What is mean by SEZ?
- e) Give the two names of agro-based industries in India.
- f) Give the full from of MIDC.

Q2) a) Explain the industrial region of India. **[7]**

b) Explain the problems of sugar industries in India. **[5]**

Q3) a) Critically evaluate losch's model of industrial location. **[7]**

b) Give an account of 'Chemical industries in India. **[5]**

Q4) a) Explain the scope of industrial geography. **[7]**

b) Explain the problems of IT industrial location. **[5]**

Q5) a) Explain the Weber's theory of industrial location. **[7]**

b) Write a note on regional development of industries. **[5]**

Q6) a) Explain the impact of physical factors an industrial location. **[7]**

b) Discuss the salient features of Indian industrial regions. **[5]**

Q7) Write short note on any two of the following. **[12]**

- a) Cotton textile industries.
- b) Small scale industries in India.
- c) Nature of industrial geography.

GEOGRAPHY

GGUT - 129 : Geography of Rural Settlements

(2019 Pattern) (Credits 4) (Semester - II)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Q.1 is compulsory.*
- 2) *Solve any Five questions from Q.2 to Q.7.*
- 3) *Q.2 to Q.7. carry equal marks.*

Q1) Solve any Five of the following. [10]

- a) Define rural settlements.
- b) What is a situation of settlement?
- c) What do you mean by the transformation of rural settlements?
- d) Define migration.
- e) What is the nucleation of settlements?
- f) What do you mean by primitive house?

Q2) a) Discuss the historical and cultural aspects of settlements reflected in place names. [7]

b) Describe the system of land tenancy in rural areas. [5]

Q3) a) Discuss the factors affecting on the growth of settlements. [7]

b) Explain the Ricardo theory of rural land use. [5]

Q4) a) Critically examine the central place theory. [7]

b) Explain the socio-economic transformation in rural areas. [5]

Q5) a) Discuss the various patterns of settlements in Maharashtra. [7]

b) Describe the demographic characteristics of rural communities. [5]

Q6) a) Describe the factors affecting on the dispersion of settlement. [7]

b) Discuss economic organization within the village. [5]

Q7) Write short notes on any two of the following. [12]

- a) Factors affecting rural house types.
- b) Centrality and hierarchy of rural service centres.
- c) Commuting pattern.

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Q.2 to Q.7 carry equal marks.*
- 4) *Figures to the right indicate full marks.*

Q1) Solve any five of the following:

[10]

- a) Give the range of visible spectrum in EMR.
- b) Define Radiation.
- c) What is Sun-synchronous satellite?
- d) Define push broom Scanner.
- e) Give the meaning of temporal resolution.
- f) What is meant by Naelir point?

Q2) a) Give an account of components of remote sensing.

[7]

b) Explain interaction of EMR with surface earth.

[5]

Q3) a) Describe remote sensing platform with characteristics.

[7]

b) Discuss the IRS. Series of satellites.

[5]

Q4) a) Give an account of Geo stationary satellites.

[7]

b) Explain spatial resolution with an example

[5]

P.T.O.

- Q5)** a) Describe the elements of image interpretation. [7]
b) Explain the role of association in image interpretation. [5]
- Q6)** a) Explain the specifications of Aerial camera. [7]
b) Describe the types of Aerial photography. [5]
- Q7)** Write short notes (any two) [12]
a) Fiducial axis.
b) SPOT Satellites.
c) LANDSAT Satellites.

(2019 Pattern) (Semester - III) (CBCS)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates :

- 1) *Question No. 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Questions 2 to 7 carry equal marks.*
- 4) *Use of map stencils is allowed.*

Q1) Solve any Five of the following :

[10]

- a) What do you mean by natural hazards?
- b) Write any two name of Greek school of thought.
- c) Define the term 'Remote Sensing'.
- d) Enlist the name of the books by Humboldt.
- e) Write any two methods of field survey?
- f) Define the term 'Hypothesis'.

Q2) a) Describe in brief Captain cook and it's work in Geography.

[7]

b) Explain the work of Strabo in Geographical thought.

[5]

Q3) a) Describe the contribution of Immanuel Kant in Geography.

[7]

b) Explain the physical versus Human Geography.

[5]

P.T.O.

- Q4)** a) Discuss the theories and laws in Geography. [7]
b) Write in brief account of Arab School of thought. [5]
- Q5)** a) Explain the significance of Applied Geography. [7]
b) Describe the role of experimental studies in Geography. [5]
- Q6)** a) Describe the contribution of Marco-polo in Geography. [7]
b) Discuss the various techniques in landuse planning. [5]
- Q7)** Write Short notes on any two of the following : [12]
a) Regional Planning.
b) Vasco-da-Gama.
c) GIS.

GEOGRAPHY

GGUT-237 : Tropical Geomorphology

(2019 Pattern) (CBCS) (Semester - III) (Credit-4)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Questions 2 to 7 carry equal marks.*

Q1) Solve any five of the following :

[10]

- a) What is weathering?
- b) Define duricrust.
- c) What is meant by clay mineral?
- d) State the name of chemical denudation in tropics.
- e) What is hillslope?
- f) Name various types of tropical coasts.

Q2) a) Describe Morphogenetic regions in the tropics.

[7]

b) Explain the deep weathering profile in the tropics.

[5]

Q3) a) Explain the classification of tropics.

[7]

b) Describe process of chemical denudation in tropics.

[5]

Q4) a) Discuss the process of soil formation in tropics.

[7]

b) Explain landform development on laterite.

[5]

P.T.O.

- Q5)** a) Explain types of mass movement in tropics. [7]
b) Describe peculiarities of tropical climate. [5]
- Q6)** a) Describe role of tectonics and climate change in tropics. [7]
b) Explain morphology of plantation surfaces in tropics. [5]
- Q7)** Write short notes on any two of the following : [12]
a) Slope and valley forms
b) Double surface planation
c) Changes in climate during quaternary period.

GEOGRAPHY

GGUT - 238 : Applied Climatology

(2019 Pattern) (CBCS) (4 Credits) (Semester - III)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) Q.1 is compulsory.
- 2) Solve any five questions from Q.2 to Q.7.
- 3) Question Q.2 to Q.7 carry equal marks.
- 4) Use of map stencil is allowed.

Q1) Write the answer of the following questions in about 20 words (any 5): [10]

- a) Name the instruments used to measure precipitation.
- b) Write any two effects of climate on plants.
- c) What is climate extreme?
- d) Write any two effects of climate on soil.
- e) Define cooling degree days.
- f) What is plant stress?

Q2) a) Write the stages in the development of applied climatology. [7]

b) Describe evaporation and evapotranspiration. [5]

Q3) a) Describe Radiation in details. [7]

b) Explain the effects of climate on soil. [5]

Q4) a) Describe human bio-meteorology. [7]

b) Write significant climate variables. [5]

P.T.O.

- Q5)** a) Explain the nature of global environmental change. [7]
b) Describe forms of precipitation. [5]
- Q6)** a) Describe Micro-metrological changes and behaviour of pests and diseases. [7]
b) Explain transpiration and crop stress. [5]
- Q7)** Write short notes on any two of the following : [12]
a) Effects of climate on land transport.
b) Traction ability.
c) Urban Heat Island.

GEOGRAPHY

**GGUT - 239 : Geography of Rural Development
(2019 Pattern) (Semester - III) (Credit-4)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates :

- 1) *Q.1 is compulsory.*
- 2) *Solve any five questions from Q.2 to Q.7.*
- 3) *Questions 2 to 7 carry equal marks.*

Q1) Solve any five of the following. **[10]**

- a) Write any two objectives of rural development.
- b) Name the various types of planning.
- c) What is multilevel planning?
- d) What is mean by MGNREGA?
- e) What is E-Governance?
- f) What is the smart village concept?

Q2) a) Describe the concept of Rural Management. **[7]**

b) Explain economic factors affecting on Rural Development. **[5]**

Q3) a) Explain about the rural development planning in India. **[7]**

b) What are the problems of grassroot planning? **[5]**

Q4) a) Discuss the various problems of panchayat Raj Institution. **[7]**

b) What are the major problems of rural education. **[5]**

P.T.O.

- Q5)** a) Discuss about the problems of Rural development planning. [7]
b) Describe the role of Regional Rural Bank. [5]
- Q6)** a) Discuss about the concept of Rural Hanning. [7]
b) Explain the role of NABARD in rural development. [5]
- Q7)** Write a short notes on any two of the following. [12]
a) District planning.
b) Green Revolution and Rural Development.
c) Integrated Rural Development programme.

[Max. Marks : 70

Instructions to the candidates :

- 1) *Question 1 is compulsory.*
- 2) *Solve any Five questions from Question No. 2 to Question No. 7.*
- 3) *Questions 2 to 7 carry equal marks.*

Q1) Solve any five of the following :

[10]

- a) Define - Urban settlement.
- b) Give any two objective of urban studies.
- c) State any two elements of city plan.
- d) What is market principle?
- e) Name any two contemporary factors of urbanization.
- f) Mention any two characteristics of CBD.

Q2) a) Explain the scope of urban geography.

[7]

b) Elaborate the meaning of urban settlement and concept of urbanization.**[5]**

Q3) a) Explain the sector theory of morphological pattern of cities.

[7]

b) What is the urbanization curve? Explain in detail.

[5]

P.T.O.

- Q4)** a) Review the spatio - temporal variation in urbanization of the world. [7]
b) Give functional classification towns and cities. [5]
- Q5)** a) Is Christaller's central place theory applicable for Indian conditions? Explain in detail. [7]
b) What are the civic amenities problems faced in cities? [5]
- Q6)** a) Which are the contemporary factors of urbanization? [7]
b) Explain urban development policies in India. [5]
- Q7)** Write short notes on any two of the following : [12]
a) Central business district.
b) Age, sex demographic structures in urban areas.
c) City regions in India.

GEOGRAPHY

GGUT- 242 : Hydrology

(2019 Pattern) (Semester - III) (Credit - 2)

Time : 2 Hours]

[Max. Marks : 35

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any Three question from question No. 2 to question No. 5.*
- 3) *Question No. 2 to 5 carry equal marks.*

Q1) Solve any five of the following. **[5]**

- a) Define 'Hydrology'
- b) Give units for measurement of stream flow.
- c) What do you meant by 'Gross Precipitation'.
- d) Define 'Transpiration'.
- e) What is meant by 'Hail'.
- f) Define 'Depression storage'.

Q2) a) Describe the hydrologic budget. **[6]**

b) Write note on sources of hydrologic data. **[4]**

Q3) a) Explain the probable maximum precipitation. **[6]**

b) What is difference between net and gross precipitation. **[4]**

Q4) a) Discuss the factors affecting on interception. **[6]**

b) Write a note on evopotranspiration. **[4]**

P.T.O.

Q5) Write any two of the following :

[10]

- a) Describe the application of hydrology.
- b) Write a note on 'Through full.
- c) Explain the methods of evaporation control.

(2019 Pattern) (Semester - III) (Credit-2)

Time : 2 Hours]

[Max. Marks : 35

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Solve any three questions from Q.No. 2 to Q.No. 5.*
- 3) *Questions 2 to 5 carry equal marks.*

Q1) Solve any five of the following : **[5]**

- a) Define 'watershed'.
- b) What is watershed delineation?
- c) What do you mean by transpiration?
- d) What is the main objective of integrated watershed development plan?
- e) What is meant by 'Nala Bunding'?
- f) Define the precipitation.

Q2) a) Give the principle of watershed management. **[6]**

b) Explain the water budget process in watershed. **[4]**

Q3) a) Explain the interception and infiltration process in watershed. **[6]**

b) Describe the physiography and drainage characteristics of watershed. **[4]**

Q4) a) Explain the methods of water conservation in watershed. **[6]**

b) Give the importance of watershed management in National development. **[4]**

P.T.O.

Q5) Write any two of the following :

[10]

- a) Explain necessity of watershed management.
- b) Write note on delineation of watershed.
- c) Describe contour bunding and gully plugging methods for soil conservation.

Instructions to the candidates:

- 1) *Question 1 is compulsory.*
- 2) *Attempt any five questions from Q.2 to Q.7.*
- 3) *Questions 2 to Q.7 carry equal marks.*
- 4) *Use of map stencil is allowed.*

Q1) Write the answer of the following questions in about 20 words. (any 5) **[10]**

- a) Which is the southernmost place of India.
- b) Name the longest west flowing river of India.
- c) Name the place of highest rainfall in India.
- d) State any Atomic power project in India.
- e) State the place of India in the world terms of population density.
- f) Name any two iron and steel industries in India.

Q2) a) Write the main physiographic divisions of India and describe the coastal lands. **[7]**

b) Describe any west flowing river drainage system in India. **[5]**

Q3) a) Write the Indian weather seasons and explain any one with associated weather conditions. **[7]**

b) Describe major soil types and its distribution in India. **[5]**

P.T.O.

- Q4)** a) Write the impact of physical components on forest types and their distribution in India. [7]
b) What are the main reasons of Deforestation in India. [5]
- Q5)** a) Discuss the distribution and utilization of any type of energy resources in India. [7]
b) Write distribution & utilization of iron ore mineral in India. [5]
- Q6)** a) Describe the distribution and production of major crops in India. [7]
b) Write major environmental factors affecting Indian Agriculture. [5]
- Q7)** Write short notes on any two of the following. [12]
a) Growth of population in India.
b) Religious population composition on India.
c) Problems of Industrial development in India.

Instructions to the candidates:

- 1) *Q1 is compulsory.*
- 2) *Solve any five from Q2 to Q7.*
- 3) *Question 2 to 7 carry equal marks.*

Q1) Solve any five of the following :

[10]

- a) What is Applied oceanography?
- b) What is Panthalassa?
- c) What is divergent plate boundary?
- d) What is continental slope?
- e) What is 'halodine'?
- f) Give two examples of biogenous sediments.

Q2) a) Define Oceanography. Explain the physical & chemical oceanography in details. **[7]**

b) Describe the contribution of oceanographers in the subject. **[5]**

Q3) a) Explain sea floor spreading theory in details. **[7]**

b) What is convergent boundary? Explain the ways of convergence occurrence. **[5]**

P.T.O.

- Q4)** a) What is ocean bottom relief? Explain the features of deep ocean. [7]
b) Explain ocean bottom relief of Atlantic ocean. [5]
- Q5)** a) Explain the inter-relation between ocean water temperature and density. [7]
b) Describe the continental shelf and rise with proper illustration. [5]
- Q6)** a) Explain in brief about hydrogenous sediments. [7]
b) Give the evidences of continental drift theory. [5]
- Q7)** Write short notes on any two of the following : [12]
a) Carbonate cycle
b) Coral reefs and its types
c) Exploited resources
