- **Q4**) From the following particulars, prepare a Bank Reconciliation Statement showing the position as per Pass-Book of Prakash as on 31st January, 2021.

[8]

- a) On 31st January, 2021 Bank Column of Cash- Book showed a debit balance of Rs. 57,400.
- b) Cheque of Rs. 6,350 deposited into bank but was not yet collected by bank.
- c) Bank paid electricity bill Rs. 9,700 which was not recorded in the cash book.
- d) Cheque issued to our supplier Rs. 15,100 was not presented for payment up to 31st March 2021.
- e) Interested on investment Rs. 8,800 was collected by bank was not recorded in cash book.
- f) Bank Charges of Rs. 650 was debited in pass book.
- g) Mr. Tanmay our debtor directly deposited Rs. 12,000 into our bank account on 28<sup>th</sup> March 2021, which was not entered in Cash Book.

#### **Q5**) Short Notes (Any Two)

[10]

- a) Business Entity Concept.
- b) Importance of Computerized Accounting.
- c) Limitation of Financial Accounting.
- d) Subsidiary Books.

|                          |        | b)                                     | Sunk cost in the short run             |         |                     |
|                          |        | c)                                     | Sunk cost in the long run              |         |                     |
|                          |        | d)                                     | Unavoidable in the long run            |         |                     |

B) Match the following:

a) Two Firm Oligopoly

ii) ATC =

i)

b) Price Taker

iii) AFC =

c) AFC + AVC

iv) DUOPOLY =

- d) TFC/Production
- v) Two Sectoral Economy

Perfect Competition

- e) Households and Firms
- C) True or False (Attempt any 4 out of 5):

[4]

[5]

- i) Average cost is defined as total cost divided by total output.
- ii) Flow of goods and services in barter economy is called circular flow.
- iii) Economic problem arise because of abundant resources.
- iv) A firm will earn normal profit when Marginal Cost = Marginal Revenue.
- v) Market will be deficit product when Supply = Demand.
- Q2) Short Answer (Attempt Any 3 out of 4):

[24]

- a) Explain the meaning, scope and importance of Business Economics.
- b) State the concept of cost. Explain the concept of cost.
- c) Explain the law of supply and determinants of supply.
- d) Explain the features of Monopolistic Competition.
- Q3) Long Answer (Attempt any 2 out of 4):

[32]

- a) Explain the various forms of Economy. Explain the central problems of Economy.
- b) What is meant by demand? Explain in detail the types of Elasticity of Demand.
- c) Explain the different types of Revenue and Explain the Interrelationship between Marginal, total and average revenue.
- d) State the characteristics of monopoly and explain the output and price determination in Monopoly.

iv) None of the above

e) The value of  ${}^5C_1 = \underline{\hspace{1cm}}$ .

i) 1

ii) 5

iii) 4

iv) 15

B) State whether the following statement are True or False.

 $[3 \times 2 = 6]$ 

- i) Only a non-singular matrix can possess inverse.
- ii) For the selection of objects p ermutation is required.
- iii) In the L.P.P. decision variables are the unknowns to be found out.

**Q2)** Attempt any four of the following:

 $[4 \times 4 = 16]$ 

- a) If the ratio of two numbers is 4:7 and the smaller number is 24. Find the bigger number.
- b) Find the simple interest on Rs. 2500 for 3 years at 5% p.a.
- c) If  $\begin{bmatrix} x & 3 \\ 8 & 6 \end{bmatrix}$  is a singular matrix then find the value of x.
- d) Explain constraints and objective function of the L.P.P.
- e) How many four-digit numbers can be formed using the digits 1,2,3,4,5 if repetition of digits is not allowed?
- f) The average age of 7 family members is 75 years. But average age of 6 of them is 74 years 6 months. Find the age of the 7<sup>th</sup> family member.

**Q3)** Attempt any four of the following:

 $[4 \times 4 = 16]$ 

- a) If  ${}^{n}P_{r} = 3024$  and  ${}^{n}C_{r} = 126$  then find n.
- b) If  $A = \begin{bmatrix} 2 & 3 \\ 4 & 1 \end{bmatrix}$ ,  $B = \begin{bmatrix} 1 & 1 \\ 3 & 2 \end{bmatrix}$  find 3A 2B.
- c) If was sunday on 1<sup>st</sup> January 2006, what will be the day on 1<sup>st</sup> January 2023?
- d) An agent receives Rs. 800 as a commission on the sales worth Rs. 10,000. Find the rate of commission.

- e) If A:B = 4:3 and B:C = 6:7, find A:B:C.
- f) Find the amount of Rs. 4,500 at 12% p.a. in 4 years, compounded half yearly.

#### **Q4)** Attempt any four of the following:

 $[4 \times 4 = 16]$ 

- a) Show that the matrix  $A = \begin{bmatrix} 1 & 2 \\ 1 & 3 \end{bmatrix}$  satisfies the equation  $A^2 4A + I = 0$
- b) A committee of 3 persons is to be formed from 5 men & 4 women so as to include atleast one man and atleast one woman. In how many ways can this be done?
- c) A camera when sold at Rs. 1674 resulted into loss of 7%, then calculate cost price.
- d) Explain symmetric and skew-symmetric matrix.
- e) Find the amount on the principal of Rs. 4000 at the rate of 11.5% p.a. in 10 years?
- f) The following data is related to different shops which sold books:

| Shops | Total<br>Boks | % of<br>Sold Books | % of Novels out of total total books | % of story<br>Books out of<br>Total Books |
|-------|---------------|--------------------|--------------------------------------|---|
| A     | 14,000        | 70                 | 40                                   | 60  |
| В     | 25,000        | 50                 | 75                                   | 25  |
| С     | 18,000        | 60                 | 20                                   | 80  |
| D     | 30,000        | 80                 | 50                                   | 50  |

Answer the following questions.

- i) Find the average number of story books in shop A, C and D.
- ii) Find the total number of Novels sold by shop A, if the number of unsold story books with shop A is 2600.

#### **Q5)** Attempt any one of the following:

 $[1 \times 6 = 6]$ 

a) Solve the following L.P.P. by graphical method:

$$Miximize Z = 10x + 15y$$

subject to

$$12x + 5y \le 2700$$

$$5x + 10y \le 2000$$

$$x, y \ge 0$$

b) Find the inverse of the matrix

$$A = \begin{bmatrix} 7 & -2 \\ -6 & 2 \end{bmatrix}$$

| Factory                                  | 1,200    |
| Office                                   | 400      |
| Dividend                                 | 10,000   |
| General Expenses                         | 3,400    |
| Managers Salary (¾ factory and ¼ office) | 10,000   |

Prepare cost sheet giving the following information:

- a) Material Consumed
- b) Prime Cost
- c) Factory Cost
- d) Cost of Production
- e) Total Cost
- f) Net Profit.

**Q4)** A) Vivek Constructions Ltd., Pune undertook a contract of Rs. 8,00,000 for the construction of a Hotel Building on 1<sup>st</sup> April, 2021. The following information is taken up from the Contract Ledger as on 31-3-2022:[10]

| Particulars                                     | Rs.      |
|---|----------|
| Cash received being 90% of work certified       | 3,60,000 |
| Material directly issued from stores            | 120,000  |
| Material purchased                              | 50,000   |
| Scrap Material sold                             | 9,000    |
| Material transferred to other contract          | 11,000   |
| Materials in hand on site                       | 10,000   |
| Materials returned to stores                    | 6,000    |
| Direct wages paid and payable                   | 85,000   |
| Direct charges                                  | 45,000   |
| Overheads charged to contract                   | 40,000   |
| Subcontract Cost                                | 9,000    |
| Cost of Additional Work                         | 3,400    |
| Outstanding Direct Expenses                     | 1,600    |
| Plant purchased on 1-4-2021 and issued directly | 80,000   |
| Plant transferred on 1-4-2021 to other contract | 60,000   |
| Uncertified work being 8% of certified work.    |          |

You are required to prepare Contract Account

B) A product X produce in Krishna ltd. Nashik passes through three processes A, B & C. 10,000 units were issued to process 'A' in the beginning at cost of Rs. 10 per unit. Prepare process account assuming that there was no opening or closing stock.

The following information is made available:

[10]

| Particulars                  | Process A | Process B | Process C |
|------------------------------|-----------|-----------|-----------|
| Sundry Materials (Rs.)       | 10,000    | 15,000    | 5,000     |
| Wages (Rs.)                  | 50,000    | 80,000    | 65,000    |
| Direct Expenses (Rs.)        | 15,300    | 18,100    | 30,828    |
| Normal Scrap(%)              | 3         | 5         | 8         |
| Value of Scrap per unit(Rs.) | 2.50      | 5.00      | 8.50      |
| Actual Output (units)        | 9,500     | 9,100     | 8,100     |

|             |              | a)                                      | Second quartile is same as Median.  |                 |  |  |  |  |
|             |              | b)                                      | Mid-values of the classes are also called class-mark                            |                 |  |  |  |  |
|             |              | c)                                      | Index numbers are expressed in terms of absolute va                             | alue.           |  |  |  |  |
| <b>Q</b> 2) | Atte         | empt                                    | any four of the following:  | $[4\times4=16]$ |  |  |  |  |
|             | a)           | Def                                     |   |                 |  |  |  |  |
|             | b)           | Write a note on measures of dispersion. |   |                 |  |  |  |  |

c) Draw a frequency polygon for the following data.

| Monthly House Rent | No. of families |
|--------------------|-----------------|
| 100 - 300          | 6               |
| 300 - 500          | 16              |
| 500 - 700          | 24              |
| 700 - 900          | 20              |
| 900 - 1100         | 10              |
| 1100 - 1300        | 4               |

d) Compute regression coefficients & hence verify that correlation coefficient lies between them.

$$h = 100, \overline{x} = 60, \overline{y} = 50, \sigma_x = 10, \sigma_y = 12$$

$$\sum (x - \overline{x})(y - \overline{y}) = 8400$$

- e) Suppose in Dec. 1995 land was purchased at cost Rs. 50,000. It was sold at cost Rs. 1,50,000 in Feb 2002. Find the real capital gain if the cost of inflation index in 1995-96 is 281 & that in 2001-02 is 426.
- f) Following is the data related to the frequency distribution of monthly wages of 100 workers.

| Monthly Wages in Rs. | No. of Workers |  |  |
|----------------------|----------------|--|--|
| 4000 - 5000          | 11             |  |  |
| 5000 - 6000          | 15             |  |  |
| 6000 - 7000          | 27             |  |  |
| 7000 - 8000          | 19             |  |  |
| 8000 - 9000          | 16             |  |  |
| 9000 - 10,000        | 12             |  |  |

Find

- i) Class width of first class
- ii) Class mark of second class
- iii) Number of workers having wages less than Rs. 6,000
- iv) Number of workers having wages more than Rs 6,000.

#### Q3) Attempt any four of the following:

 $[4 \times 4 = 16]$ 

a) Explain the need of classification. Explain the different methods of classification.

b) Explain the limitations of Index Numbers.

c) Yearwise & Genderwise strength of certain college is given below:

| Year  | 2003 | 2004 | 2005 | 2006 | 2007 |
|-------|------|------|------|------|------|
| Boys  | 1250 | 1500 | 1600 | 1900 | 2000 |
| Girls | 1000 | 1300 | 1600 | 1800 | 1900 |

Represent the data by multiple bar diagram.

d) From the following data find the missing frequencies, it is given that mean is 15.3818 & total frequency is 55.

e) Revenue department is trying to estimate the monthly amount of unpaid taxes. Suppose X denote field audit labour hours & Y denote unpaid taxes. Using last 10 months data the following summary is obtained.

$$\Sigma x = 441, \ \Sigma y = 272, \ \Sigma x^2 = 19461$$
  
 $\Sigma y^2 = 7428, \ \Sigma xy = 12,005$ 

Determine the Regression line Y on X.

Q4) Attempt any four of the following:

 $[4 \times 4 = 16]$ 

a) Define 'Regression'. State the situations where regression analysis is used.

b) What is dispersion? What purpose does it serve in the study of distribution?

c) Compute S.D. for the following data.

Marks 0 - 10 10 - 20 20 - 30 30 - 40 40 - 50 No. of students 3 7 25 20 5

d) Calculate median for the following frequency distribution.

Marks below 20 21-40 41-60 61-80 81-100

No. of students 1 9 32 16 7

- e) Define Index numbers & Give the comparison between Laspeyre's & Paasche's Index numbers.
- f) Draw a pie diagram to represent the following data.

Group of item Average monthly expenses
of a family (in Rs)

Food 2400
Clothing 1400
House rent 1600
Fuel & lighting 600
Miscellaneous 2000

**Q5**) Attempt any one of the following:

 $[1 \times 6 = 6]$ 

a) The following data represents the goal scored by two teams in football matches.

Number of Goals 0 1 2 4 3 No. of matches by 20 12 8 3 2 team A No. of matches by 10 7 6 18 4 team B

Which team scores more goal in average? Which team is more consistent?

b) Following data gives expenditure incurred on Advertisement & sales for 10 years.

| Expenses in Thousand | Sales is lakh |
|----------------------|---------------|
| (X)                  | (Y)           |
| 10                   | 5.0           |
| 12                   | 5.1           |
| 15                   | 5.4           |
| 14                   | 5.5           |
| 16                   | 5.7           |
| 20                   | 5.9           |
| 19                   | 6.0           |
| 24                   | 7.3           |
| 26                   | 7.5           |
| 30                   | 7.8           |

- i) Find appropriate line of regression to estimate sales for given advertisement. Also estimate sales if Advertisement expenses is Rs. 35,000.
- ii) To achieve sales target of Rs. 10 lakhs how much you need to invest in advertisement.

- v) All types of agriculture technology support to development of formers in good manners.
  - a) True

- b) False
- Q2) Short Answer. (Attempt any 2 out of 4)

[14]

- a) Land Development Bank Explain.
- b) Kisan Credit Card Describe
- c) Time value of money Explain.
- d) Agriculture technology Explain
- Q3) Long answer (Attempt any 2 out of 4)

[24]

- a) What is agriculture finance? Explain the need and importance of Agriculture finance.
- b) Explain the various sources of agriculture finance.
- c) What is capital budgeting? Explain the importance of capital budgeting in decisions making?
- d) What is agriculture technology? Explain the need and importance of agriculture technology.

|    |  | a)  | Census  | b)                                 | Samples   |  |  |  |  |  |
|    |  | c)  | Both a & b  | d)                                 | None of these   |  |  |  |  |  |

**Q2)** Long Answer of questions.

 $[3 \times 10 = 30]$ 

- a) What is Research? Explain in brief the different types of Research.
- b) What is primary data? State the methods used for collection of primary data in detail.
- c) What is sample design? Explain steps in sample design.
- d) What is Research Report? Explain in brief different steps in writing report.
- e) What is observation method? State its merits.

#### *Q3*) Short notes (Attempt any 4 out of 6)

 $[4 \times 5 = 20]$ 

- a) Sources of secondary data
- b) Interviews
- c) Tabulation
- d) Research approaches
- e) Research design
- f) Analysis of variance

## DSE - C506 : CASES IN HUMAN RESOURCE MANAGEMENT (CBCS 2019 Pattern) (Semester - V)

Time: 2½ Hours] [Max. Marks: 50

Instructions to the candidates:

- 1) Attempt all questions.
- 2) Figures to the right indicate full marks.

*Q1*) Case: [15]

When Mahesh joined ABC bank private sector he had one clear goal to prove his metal he did prove himself and has been promoted five times since his entry into the bank. Compared to others, his progress has been the fastest. Currently, his job demands that Mahesh should work 10 hours a day with practically no holidays. At least two day in a week, Mahesh is required to travel. Peers and subordinates at the bank have appreciation for Mahesh. They don't grudge the ascension achieved by Mahesh, though there are some who wish they too had been promoted as well.

The post of General Manager became vacant. One should work as GM for a couple of years if he were to climb to the top of the ladder. Mahesh applied for the post along with others in the bank. The chairman assured Mahesh that the post would be his. A sudden development took place which almost wrecked Mahesh's chances. The bank has a practice of subjecting all its executives to medical checkup once in a year. The medical reports go straight to the Chairman who would initiate remedial where necessary. Mahesh was only 35, he too, was required to undergo the test. The chairman of the bank received a copy of Mahesh physical examination results, along with a note from the doctor.

The note explained that Mahesh was seriously overworked and recommended that he be given and immediate four-week vacation. The doctor also recommended that Mahesh workload must be reduced and he must take to physical exercise everyday.

The note warned that if Mahesh did not care for advice, he would be in for heart trouble in another six months. After reading the doctor's note, the Chairman sat back in his chair, and started brooding over. Three issues where uppermost in his mind

- i) How would Mahesh take this news?
- ii) How many others do have similar fitness problems?
- iii) Since the environment in the bank created the problem, what could he do to alleviate it?

#### Questions.

- 1) If the news is broken to Mahesh, how would he react?
- 2) If you were giving advice to the Chairman on this matter, what would you recommend?

**Q2**) Case: [15]

Himalaya stores private limited was established in 2001 as a family concern with a small general store to begin with. It has now grown into a large private limited company and runs a multi storied departmental store which has about 300 employees. With the growth in companies business, qualified managers, salespersons and other employees were appointed in various departments. Ms. Verma agent 58, now working as manager of Sales Planning is in the organization right from the beginning. She started as a sales girl in the shop and has so far handled almost all types of work in the company. She had to leave college studies and had to take up a job, due to some family problem. She has a younger brother, who is well settled as an aeronautics engineer in Bangalore.

Ms. Verma is known to be very sincere and loyal to the organization and very strict executive. The management committee has made a special mention of her services and contribution on several occasions. The managers in other departments often consult her on various matters. They have always found her advice to be valuable. Ms. Verma's job includes sales planning and budgeting.

The departmental store has 120 sales girls' who are supervised by five floor supervisors. Many of the sales girls are graduates. But they have continuous turnover. The sales girls tend to leave jobs for family reasons, especially when they get married.

So it becomes necessary 'almost every year' to recruit and appoint few new salesgirls. Recently, the Sales Manager has come across certain problems and does not know how to solve them. The trainee sales girls from the sales from sales promotion approached him one day and asked whose instructions they should follow. They said that, they thought they were supposed to follow directives of the Sales Promotion manager, as he was their boss. But they were also getting instructions and directions from Ms. Verma from time to time, which were clashing with that of their own manager.

One of the floor supervisors has complained that Ms. Verma often checks on the work of the sales girls at the sales counters. She rebuked and reprimanded them for small mistake. She also criticizes their sales stock and the way they dress. The supervisor narrated one instance, Venice sales girl broke down to tears, when Ms. Verma objected to her going out with some relatives during the lunch break. The sales manager is apprehensive that he should not get into unnecessary squabbles with Ms. Verma. He respects her for her age and seniority in the company and the weightage she carries with the top management. He would not mind few healthy suggestions from her. But he now feels Ms. Verma is encroaching rather too far in other manager's territory. He is also concerned that open confrontation may not be desirable, since that would create a bad image for him with the top management. He thinks he knows the problem but does not know 'how to bell the cat', without hurting his image and the interpersonal relations between himself and other managers especially Ms. Verma.

### Questions:

- 1) Analyse the case.
- 2) What should the Sales manager do?
- 3) If you were appointed as HR by top management, how would you deal with the situation?

**Q3**) Case: [10]

Swagata foods limited is a homegrown company in the business of processing and marketing jams' ketchups and Pickles stop it enjoy hi Brandy equity and the management is professional. Still love you buddy CEO had decided to quit and he was personally involved in the recruitment of his successor, Mr.Raj. After Mr. Raj joined the company, he wanted to review the performance appraisal system, which was started about 15 years ago. Initially, it was a trait based system where in superiors rated employees on the basis of job knowledge, integrity, communication, health! hygiene, loyalty etc. In the

last two years, the erstwhile CEO Mr. Ravi, had introduced 360 degree appraisal system, which essentially involved a manager being appraised by his subordinates, peers and superiors.

In the new system the subordinates had the opportunity to give feedback freely about their manager's behavior. He carried out a pilot study through a questionnaire and was of the opinion that it is essential to heed to the views, concerns and opinions of subordinates with care and respect. He then designed a subordinate appraisal form and made it an integral part of the managerial performance appraisal system. The name of the subordinates giving the feedback was kept confidential and only the responses were shown to the managers. The introduction of this system evoked a lot of hue and cry in the organization. Managers were up in arms, as many of the top performing managers got a negative feedback from their subordinates. They wanted that feedback be given in a face to face discussion.

But Mr. Raj had his doubts about this system as it questions the very basics of organizational control mechanisms and group dynamics. Therefore, he agreed that performance appraisal system needs to be top-down and vice versa. The problem is that the existing system could not be totally scrapped out because it would send the wrong message to the subordinate level employees that their views does not matter to the management. However, continuation of the existing system would create greater conflict. Time was running out and Mr. Raj had to quickly come to some conclusion because the new appraisal cycle had to start within two weeks.

### Questions:

- 1) What went wrong with the assessment of Mr.Raj regarding implementing 360 degree performance appraisal system?
- 2) Why are the managers up in arms?
- 3) What should Mr. Raj do now? Please advise him

**Q4**) Case: [10]

Shailesh a machine operator, worked as a mechanist for Srinivas, the supervisor. Srinivas told Shailesh to pick up some trash that had fallen from Shailesh's work area, and Shailesh replied, "I won't do the janitor's work".

Srinivas replied, "when you drop it you pick it up". Shailesh became angry and abusive, calling Srinivas a number of names in a loud voice and

refusing to pick up the trash. All employees in the department heard Shailesh's comments.

Srinivas had been trying for two weeks to get his employee to pick up trash in order to have cleaner workplace and prevent accidents. He talked with all the employees in a weekly departmental meeting and to each employee individually at least once. He stated that he was following the instructions of the General Manager. Only objection came from Shailesh.

Outburst by Shailesh hurt Srinivas badly. Srinivas told Shailesh to come to the office and suspended him for one day for insubordination and abusive language to a supervisor. The discipline was within the company policy, and similar behavior had been punished in other departments in the past.

After Shailesh left Srinivas's office, Srinivas phoned the Human Resource Manager, reported what he had done, and said that he was sending a copy of the suspension order for Shailesh's file.

#### **Ouestions:**

- 1) If you were the human resource manager, what comments would you make?
- 2) Do you assess the need for any of employees? If yes, what inputs should be embodied in the training programme?

NEFT.

e)

**B**)

C)

#### **D)** Fill in the Blanks:

 $[5 \times 1 = 5]$ 

- a) ----- is a global system of interconnected computer networks that use standard internet protocol suites to link several devices worldwide.
- b) ----- is the process of identifying new suppliers for a specific spend category using internet technology.
- c) ----- allow users to make instore payments without having carry cash or physical credit cards.
- d) ----- is a block of data that can be attached to documents like email, Messages, word files etc.
- e) A ---- is an online journal displaying information in reverse chronological order.

#### Q2) Long Answer Questions (Any 3):

 $[3 \times 10 = 30]$ 

- a) Define E Commerce. Explain the various factors responsible for the Growth of E Commerce in India.
- b) Describe the role of Modern Digital Payment systems and challenges faced in the Indian Retail sector.
- c) Define Content Marketing. Explain content marketing cycle and its types.
- d) What is Phishing? How do you protect against Phishing Attacks and explain Phishing Techniques?
- e) Differentiate between Internet, Extranet and Intranet.

#### **Q3)** Short Answer Questions (Any 4):

 $[4\times5=20]$ 

- a) FIAT Currency.
- b) Intranet.
- c) Google Lens.
- d) Data Theft.
- e) EDI.
- f) Mobile Hacking.

#### Q2) Write Long Answer (Any 3):

 $[3 \times 10 = 30]$ 

- a) Define the term IS. Explain the components of IS.
- b) Explain in details the use of MIS as an instrument for organisational change.
- c) Discuss in details the attributes of Information.
- d) What is mean by system? State the properties of system.
- e) What is mean by E-Commerce? Explain the features of E-Commerce.
- f) What is mean by DSS? Explain DSS applications in enterprise in details.

#### Q3) Write Short Notes (Any 4):

 $[4 \times 5 = 20]$ 

- a) Basic concept of MIS
- b) Role of IT in MIS
- c) Types of Information
- d) System analysis of existing system
- e) E-Business
- f) BPR

#### Q3) Write Long Answer (Solve Any One):

[15]

a) Explain the term Capital Structure. What are the factors affecting Capital Structure?

OR

- b) What do you mean by Financial Management? Write in details about long term and short term sources of finance.
- Q4) a) A firm has sales of A 10,00,000, variable cost A 7,00,000 and fixed cost A 2,00,000 and debt of A 5,00,000 at 10% rate of interest. What are the operating financial & combined leaverages?[5]
  - b) Calculate the operating leverage, financial leverage and combined leverage from the following details: [10]

Selling price per unit = A 150

Variable cost per unit = A 100

Fixed cost = A 6,00,000

Production & Sales = 20,000 units

The capital structure of the company under alternate financing plan is as follows:

| Particulars    | Plan I        | Plan II       |
|----------------|---------------|---------------|
|                | А             | А             |
| Equity Capital | 20,00,000 (+) | 10,00,000 (+) |
| 16% Debentures | 10,00,000     | 20,00,000     |
| Total          | 30,00,000     | 30,00,000     |

## [5953]-610 T.Y. B.B.A. A 606 : CASES IN MARKETING

(2019 Pattern) (Semester - VI)

Time: 2½ Hours] [Max. Marks: 50

Instructions to the candidates:

- 1) All questions are compulsory.
- 2) Figures to the right indicate full marks.

#### Q1) Write Short Notes: (In 150 words) (attempt any 1)

[5]

- a) What is an ideal case study format?
- b) Why case studies are essential?

#### Q2) Case Study 1:

[15]

In April 1995, Kellogg India Ltd. (Kellogg) received unsettling reports of a gradual drop in sales from its distributors in Mumbai. There was a 25% decline in countrywide sales since March 1995, the month Kellogg products had been made available nationally.

Launched in September 1994, Kellogg's initial offerings in India included cornflakes, wheat flakes and Basmati rice flakes. Despite offering good quality products and being supported by the technical, managerial and financial resources of its parent, Kellogg's products failed in the Indian market. Even a high-profile launch backed by hectic media activity failed to make an impact in the marketplace. Meanwhile, negative media coverage regarding the products increased, as more and more consumers were reportedly rejecting the taste. There were complaints that the products were not available in many cities. According to analysts, out of every 100 packets sold, only two were being bought by regular customers; with the rest 98 being first-time buyers. Converting these experimenters into regular buyers had become a major problem for the company.

By September, 1995, sales had virtually stagnated. Marketing experts pointed out various mistakes that Kellogg had committed and it was being increasingly felt that the company would find it extremely difficult to sustain, it self in the Indian market.

A typical, average middle-class Indian family did not have breakfast on a regular basis like their Western counterparts. Those who did have breakfast, consumed milk, biscuits, bread, butter, jam or local food preparations like idlis, parathas etc. According to analysts, a major reason for Kellogg's failure was the fact that the taste of its products did not suit Indian breakfast habits. Kellogg sources were however quick to assert that the company was not trying to change these habits; the idea was only to launch its products on the health platform and make consumers see the benefit of this healthier alternative.

In most Third World countries pricing is believed to play a dominant role in the demand for any product. But Kellogg did not share this view. Avronsart said, "Research demonstrates that to be well accepted by consumers even the most nutritious product must taste good. Most consumers view quality as they view taste, but with a very high standard. We approach pricing on a case-to-case basis, always consistent with the total value delivered by each product." Kellogg's advertising had not been very impressive in the initial years. Apart from 'Jago jaise bhi, lo Kellogg's hi,' the brand had no long-term baseline lines. Later, Kellogg attempted to indianise its campaigns instead of simply copying its international promotions.

In April 1997, Kellogg launched 'The Kellogg Breakfast Week,' a community-oriented initiative to generate awareness about the importance of breakfast. The program focussed on prevention of anemia and conducted a series of nutrition workshops activities for both individuals and families. The program was launched in Chennai, Delhi and Mumbai. The company tied up with the Indian Dietetic Association (IDA) to launch a nation-wide public-service initiative to raise awareness about iron deficiency problems.

In 1995, Kellogg had a 53% share of the Rs. 150 million breakfast cereal market, which had been growing at 4-5% per annum till then. By 2000, the market size was Rs. 600 million, and Kellogg's share had increased to 65%. Analysts claimed that Kellogg' entry was responsible for this growth. The company's improved prospects were clearly attributed to the shift in positioning, increased consumer promotions and an enhanced media budget. The effort to develop products specifically for the Indian market helped Kellogg make significant inroads into the Indian market.

- a) Why the sales of Kellogg was not good in the Indian market?
- b) Why middle class Indian family not purchasing Kellogg products?
- c) What was the company's main objective to launch Kellogg products in Indian market?
- d) Was pricing the major issue as per Avronsart for less sales in India?
- e) What was the name of the Campaign launched by Kellogg and what was its objective?

[15]

Domino's and Pizza Hut the two big US fast food chains entered India in 1996. Each claimed it had the original recipe as the Italians first wrote it and was trying desperately to create brand loyalty. Domino's and Pizza Hut - tried to grab as large a slice of the pizza pie as possible.

While Pizza Hut relied on its USP of "dining experience", Domino's USP was a 30-minute delivery frame. To penetrate the market, both the players redefined their recipes to suit the Indian tastes. Domino's went a step ahead by differentiating regions and applying the taste-factor accordingly. Domino's also made ordering simpler through a single toll-free number through out the country.

When Domino's entered the Indian market, the concept of home delivery was still in its nascent stages. It existed only in some major cities and was restricted to delivery by the friendly neighborhood fast food outlets. Eating out at 'branded' restaurants was more prevalent. To penetrate the indian market, Domino's introduced an integrated home delivery system from a network of company outlets within 30 minutes of the order being placed

However, Domino's was not the trendsetter so far as home delivery was concerned. Delhi based fast food chain, Nirula's was the first to start free home delivery in 1994. But where Domino's stole the market was its efficient delivery record. Goutham Advani (Advani), Chief of Marketing. Domino's Pizza India, said, "What really worked its way into the Indian mind set was the promised thirty minute delivery." Domino's also offered compensation: Rs.30/off the price tag, if there was a delay in delivery. For the first 4 years in India, Domino's concentrated on its 'Delivery' act.

For its delivery promise to work, Domino's followed a 11-minute schedule: one minute for taking down the order, one minute for Pizza-making, six minutes oven-time, and three minutes for packing, sealing and exit. Pizza Hut, on the other hand, laid more emphasis on its "restaurant dining experience." It positioned itself as a family restaurant and also concentrated on wooing kids. Its delivery service was not time-bound.

A company official said, "The Pizza making process takes about 20 minutes and since we don't usually deliver to places which are beyond the reachable-in-half-an-hour distance, customers can expect home delivery within 45 minutes." Moreover, analysts felt that Pizza was something that just was not meant to be delivered. Said Vivek Sure, Projects Manager, Pizza PizzaExpress, "If you don't eat pizza fresh, it turns cold and soggy." However, Domino's seemed to have overcome this problem through its delivery pack called 'Domino's Heatwave.

Since its entry into India, Domino's introduced nine new toppings for Pizzas to cater to the local tastes. Different flavors were introduced in different parts of India. Advani said, "The Indian palate is very definitive - people are extremely finicky and choosy, not too willing to experiment. Food tastes vary from. region to region.

To capture the market, we had to localize flavors. Thus, Deluxe Chicken with Mustard Sauce and Sardines were confined to the East, Mutton Ghongura and Chicken Chettinad to the South and Chicken Pudina to Mumbai. Butter chicken, Makhani Paneer and the Chatpata Chana Masala were confined to the North.

Very soon, Pizza Hut followed Domino's and offered customized Spicy Paneer and Chicken Tikka toppings. Apart from this, it also opened a 100% vegetarian restaurant at Ahmedabad, a one-of-its-kind worldwide. The restaurant also offered a special Jam menu, which did not have a single root-based ingredient to fit in with the food habits of Jains.

Another city-specific adaptation of its menu by Pizza Hut was the restaurant in Hyderabad, (Andhra Pradesh) which offered Halal meat and chicken only with no beef and pork products in the menu.

Domino's and Pizza Hut initially restricted their ad strategy to banners, hoardings and specific promotions. In August 2000, Domino's launched the 'Hungry Kya? (Are You Hungry)'s equence of advertisements on television.

A company official said, "We realized that a Pizza couldn't be slotted - it could be a snack; then again, it could also be a complete meal" The only definitive common link between Domino's Pizzas and eating was the hunger platform.

The launch of 'Hungry Kya'? campaign coincided with Domino's tie-up with Mahanagar Telephones Nigam Ltd. (MTNL) for the 'Hunger Helpline'. The helpline enabled the customers to dial a toll-free number (1600-111-123) from any place in India. The number automatically hunted out the nearest Domino's outlet from the place where the call was made and connected the customer for placing the order.

The number also helped Domino's to add the customer's name, address and phone number to its database. This was followed by Pizza Hut's first campaign on television in July 2001, which said, 'Good times start with great pizzas.' The ad was aired during all the important programs on Star Plus, Sony, Sony, Max, Star Movies. HBO, AXN and MTV.

Pizza Hut planned to spend between Rs.70-75 million on the ad campaign in 2001. Said Pankaj Batra, "The first ad campaign on TV defines Pizza Hut as a brand, and what it offers to its existing and potential customers. Once the awareness of this message is high, we will focus on other facets of the brand and its offerings".

- a) What was the marketing USP of Dominos and Pizza Hut and how both companies targeted the Indian market?
- b) How Dominos penetrated and influenced the Indian market?
- c) What mechanism was used by Dominos for its 'delivery promise to work' and how dominos positioned itself in the market?
- d) What strategies were implemented by Dominos and Pizza Hut for localizing the menu in India?
- e) What advertising strategies Dominos and Pizza Hut implemented?

#### Q4) Case Study 3:

[15]

In 1997, BIL, whose business seemed to be doing well, instead of concentrating on it, virtually charted a new course by seeking to reinvent itself. it built a new corporate identity and adopted a colourful and identifiable logo with a new base line - 'Eat Healthy, Think better.' From being a manufacturer of baked products, BIL kicked off a diversification exercise to become a comprehensive foods and beverages company making cheese and other dairy products, in addition to its bakery products.

Others felt that BILs makeover decision may have been influenced by the threat of potential competition. They also felt that with the organised biscuit market in india being commoditised, and the major chunk being controlled by the unbranded segment, reliance on biscuits alone could be detrimental to its long-term interests.

However, some analysts were of the opinion that the diversification of BIL into relatively new areas was risky and that it should have concentrated on its core competence, the biscuit business.

As a first step in its makeover plan, BIL hired a Paris based design studio-Shining Strategic design, to craft a new logo and corporate slogan, its work involved understanding the perceived and potential value of the brand where everything from colours and symbols to the typeface, was evaluated. The work also involved looking at the potential of the market and seeing where BIL could venture in future. Research showed that the brand 'Britannia' was synonymous with trust and quality, and the wide portfolio of products was seen as a source of strength. But, BIL was aiming at faster growth, by expanding its business within the bakery segment and in select synergistic areas.

Consumer research conducted with these specific objectives in mind, brought to the fore two key issues 1. Although the brand had tremendous strength associated with it. it needed to communicate modernity strongly. 2. It needed to assure the customers that apart from being a trusted and a familiar brand, it was also a contemporary one, and changed with the times.

The fact that the existing brand was too closely associated with the bakery business, could have been a hindrance to BIL's diversification efforts. Therefore, Britannia needed a more dynamic expression. So there was a need to restage the logo, with the twin objectives of communicating modernity and dynamism. While developing the new logo and brand statement, the existing red and white shield like unit was retained with a modern rendition. The new corporate identity had three colours red (symbolising energy and vitality), green (nutrition and freshness) and white (purity) which collectively represented what consumers looked for in foods and beverage. Research had shown that the brand statement, Eat Healthy, Think Better, captured the essence of the Indian concept of the unity of body and mind.

At the low-end price-point, was the 'Tiger' brand, a calcium-enriched" glucose biscuit launched in 1997, which acted as the umbrella brand for the mass market. Until then. BIL had focussed on the middle and premium segments of the biscuit market, leaving Parle's Parle G to rule the mass market. With the mass segment accounting for half of the unorganised market, it seemed strategically important for BIL to make inroads into the same.

Therefore, as a part of its new plan to attack the mass market, BIL launched the Tiger' brand and positioned it as a 'healthforce biscuit' as consumer research showed that good health was the overwhelming consideration when mothers chose snacks for their children. Analysts felt that since Glucose had become a generic brand, BIL by establishing a new brand was clearly differentiating its Glucose biscuits from others.

- a) What potential challenges BIL had to face?
- b) What steps BIL took as its makeover plan?
- c) As per the consumer research what were the two key issues?
- d) What ideas were behind designing a new logo?
- e) What strategy BIL adopted to attack the mass market?

- 3) Use of calculator is allowed.
- Q1) A firm whose cost of capital is 10% is considering two mutually exclusive proposals X and Y, the details of which are as follows: [20]

| Particulars             | Proposal X (Rs.) | Proposal Y (Rs.) |
|-------------------------|------------------|------------------|
| Investments             | 15,00,000        | 15,00,000        |
| Cash inflows at the end |                  |                  |
| of- year                |                  |                  |
| 1                       | 1,00,000         | 6,50,000         |
| 2                       | 2,50,000         | 6,00,000         |
| 3                       | 3,50,000         | 6,00,000         |
| 4                       | 5,50,000         | 5,75,000         |
| 5                       | 7,50,000         | 5,25,000         |
|                         | 20,00,000        | 29,50,000        |

A company has a target return on capital of 10% and present value of Re. 01 @ 10% is as follows:

| Due in 1st year | 0.91 |
|-----------------|------|
| Due in 2nd year | 0.83 |
| Due in 3rd year | 0.75 |
| Due in 4th year | 0.68 |
| Due in 5th year | 0.62 |

#### Calculate:

- a) Pay Back Period,
- b) Net Present Value @ 10%,
- c) Profitability Index @ 10%
- d) Internal Rate of Return
- Q2) The Board of Directors of Avinash Chemicals Pvt. Ltd., Mumbai requests you to prepare a statement showing the working capital requirements for a level of activity of 1,56,000 units of production. The following information is available for your consideration: [15]

| Particulars            | Per Unit (Rs.) |
|------------------------|----------------|
| Raw Materials          | 90             |
| Direct labour          | 40             |
| Overheads              | 75             |
| Total Cost             | 205            |
| Profit                 | 60             |
| Selling price per unit | 265            |

- a) Raw materials are in stock on an average one month.
- b) Materials are in process 50% complete on an average two weeks.
- c) Finished goods are in stock on an average one month.
- d) Credit allowed by suppliers one month.
- e) Time lag in payment from debtors two months.
- f) Lag in payment of wages 1 1/2 weeks.
- g) Lag in payment of overheads one month.
- h) 20% of the output is sold against cash.
- i) Cash in hand and bank expected Rs. 60,000/-.

Assume that production is carried on evenly throughout the year, wages and overheads accrue similarly and a time period of 04 weeks is equivalent to a month.

Q3) Mittal Industries, Pune has the following capital structure:

| Particulars                          | Amount (Rs.) |
|--------------------------------------|--------------|
| Equity Share Capital (20,000 Shares) | 4,00,000     |
| 6 % Preference Shares                | 1,00,000     |
| 8% Debentures                        | 3,00,000     |
| Total                                | 8,00,000     |

The market price of equity share is Rs. 20/-. It is expected that the company will pay a current dividend of Rs. 2/- per share which will grow at 7% forever. Corporate tax rate is 40%. The face value and net proceeds from the preference share are Rs. 100/- each and their redemption period is 10 years. Calculate the Weighted Average Cost of Capital (WACC). [15]

**Q4**) Abhinav Paints Ltd., Mumbai sells its products at 20% profit on sales. The following information is extracted from its annual accounts for the year ending 31st march, 2022:

| Particulars  | Amount (Rs.) |
|--|--------------|
| Sales at 3 months credit                             | 40,00,000    |
| Raw Materials  | 12,00,000    |
| Wages paid - 15 days in arrears                      | 9,60,000     |
| Manufacturing expenses - 01 month in arrears         | 12,00,000    |
| Administrative Expenses - 01 month in arrears        | 4,80,000     |
| Income Tax payable quarterly - last instalment falls |              |
| due in March, 2022                                   | 4,00,000     |

The company enjoys one month's credit from the supplier of the raw materials and maintains two months stock of raw materials and one and half month's stock of finished goods. Cash balance is maintained at Rs. 1,00,000/- as a precautionary balance. Assuming 10% margin, find out net working capital requirement of the company. [15]
