**101 : ORGANISATIONAL BEHAVIOUR AND PRINCIPLES AND
PRACTICES OF MANAGEMENT
(Semester - I) (2008 Pattern)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Attempt any five questions.*
- 2) *All Questions carry equal marks.*

Q1) Define management. Explain its need and scope.

Q2) Explain the nature, importance and scope of planning with respect to Modern Management.

Q3) Define Organisational Behavior. Explain models of OB.

Q4) Explain the meaning of Personality. What are the determinants of Personality?

Q5) Define MBO. Explain the steps involved In MBO.

Q6) Define conflict. What are the different types of conflicts?

Q7) Write short notes on :- (Any Two)

- a) Leadership Styles.
- b) Process of controlling.
- c) Work life Balance.
- d) Johari window.

102 : MANAGEMENT ACCOUNTING

(Semester - I) (2008 Pattern)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Q.No. 1 is compulsory.*
- 2) *Attempt any two questions from section - I & section - II.*
- 3) *Figures to the right indicate full marks.*
- 4) *Use of simple calculator is allowed.*

Q1) With the help of specimen formats, explain the role of the following in the Inventory control process:- **[10]**

- a) Purchase Order.
- b) Bin Card.

SECTION - I

Q2) With the help of suitable examples, explain the various accounting concepts & conventions. **[15]**

Q3) What is Allocation, Apportionment and Absorption of Overheads? Discuss the accounting treatment of Under & Over Absorption of Overheads. **[15]**

Q4) Write short notes on any three:- **[15]**

- a) Labour Turnover.
- b) Periodic Inventory Control.
- c) Budget & Budgetary Control.
- d) Classification of Accounts.
- e) Pricing of Issues.

Q5) What is Financial Accounting? How is it different from Cost Accounting?[15]

P.T.O.

SECTION - II

Q6) From the following data, compute

[15]

- a) Material Cost Variance.
- b) Material Price Variance.
- c) Material Usage Variance.
- d) Material Mix Variance.

	Standard			Actual		
	Quantity (kgs)	Rate per kg (₹)	Amount (₹)	Quantity (kgs)	Rate per kg (₹)	Amount (₹)
Material A	500	10.00	5000.00	600	8.00	4800.00
Material B	1000	5.00	5000.00	1200	6.00	7200.00

Q7) The following figures are available from the books of K Ltd.

[15]

<u>Particulars</u>	<u>2011</u>	<u>2012</u>
Sales	₹ 2,00,000	₹ 3,00,000
Loss	₹ 20,000	-
Profit	-	₹ 30,000

Calculate:-

- a) Fixed Cost.
- b) Break even point sales.
- c) Margin of safety for 2012.
- d) Sales required to earn a profit of ₹ 60,000.
- e) Profit or Loss at a sales of ₹ 2,50,000.

Q8) Prepare a Cash Budget for the three months ending 30th June 2012 from the following information:- **[15]**

Month	Sales (₹)	Purchases (₹)	Wages (₹)	Overheads (₹)
February	14,000	9,600	3,000	1,700
March	15,000	9,000	3,000	1,900
April	16,000	9,200	3,200	2,000
May	17,000	10,000	3,600	2,200
June	18,000	10,400	4,000	2,300

Additional Information:-

- a) 1/10th of sales are on cash basis.
- b) Credit terms are :
 - i) Debtors - 50% of the credit sales are collected next month & the balance in the following month.
 - ii) Creditors :- For Materials
 - Purchases - 2 months.
 - For wages - 1/4 month.
 - For overheads - 1/2 month.
- c) Plant & Machinery will be installed in February 2012 at a cost of ₹96,000. The monthly instalment of ₹2,000 is payable from April 2012 onwards.
- d) A dividend @ 5% on preference share Capital of ₹2,00,000 will be paid on 1st June.
- e) Advance Income Tax is to be paid in June of ₹2,000.
- f) Dividend on investment amounting to ₹2,000 is expected to be received in June.
- g) Advance on sale of vehicle to be received in June of ₹9,000.
- h) Estimated cash & Bank balances on 1st April 2012 is expected to be ₹6,000.

Q9) Given below is the Trial Balance of M/s Tejas Chaudhary for the year ending 31st March 2013. **[15]**

Debit Balances	Amount (₹)	Credit Balances	Amount (₹)
Leasehold Land	48,000	Purchase returns	1,000
5% Government Bonds	20,000	Sales	1,02,000
Furniture	60,000	Creditors	50,000
Insurance	1,800	Discount	500
Rent	800	Int on Government	
Purchases	40,000	bonds received	500
Wages	1,600	Reserve for Bad &	
Carriage Inwards	600	Doubtful debts	1,500
Carriage Outwards	1,500	Capital	1,20,000
Sales Returns	2,000		
Stock on 1 st April 2012	20,000		
Salaries	2,400		
Travelling exps.	500		
Debtors	60,000		
Bad debts	1,000		
Machinery	12,000		
Loose Tools	2,500		
Interest	400		
Commission	400		
	2,75,500		2,75,500

Prepare Trading A/c, Profit & Loss A/c for the year ending 31st March 2013 & a Balance sheet as on that date after considering the following adjustments:-

- a) Stock on 31st March 2013 was costing ₹25,000 while its market value was ₹30,000.
- b) Outstanding Rent ₹400 & wages ₹600 to be provided for.
- c) Depreciation for the year to be charged @10% p.a on Machinery. Loose Tools to be revalued at ₹2,000 at the end of the year.
- d) Further Bad debts to be written off ₹1,000. Reserve for bad & doubtful debts to be maintained @ 5% on debtors & a 2% reserve for discount on debtors be created.

**103 :MANAGERIAL ECONOMICS
(2008 Pattern) (Semester - I)**

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) Attempt any 5 questions.*
- 2) All questions carry equal marks.*
- 3) Draw suitable diagrams (Graph paper is not required).*

Q1) Explain the nature and significance of managerial Economics? Describe its scope.

Q2) What is demand forecasting? Explain any two types?

Q3) Explain the need of government intervention in the current market?

Q4) Define 'Production Function'. Explain the three types of returns to scale.

Q5) What is capital budgeting? Explain any one method in detail.

Q6) Explain Break-even analysis with suitable diagram. State its importance.

Q7) Write short Notes on: (any two)

- a) Marginal cost.
- b) Penetrating Price & Skimming Price.
- c) Elasticity of supply.
- d) Micro economics.

104:STATISTICAL AND QUANTITATIVE METHODS

(2008 Pattern) (Semester-I)

Time : 3 Hours]

[Max. Marks :70

Instructions to the candidates:

- 1) *Solve any two questions from section I and any Two questions from section II.*
- 2) *Use of electronic calculator and statistical tables are allowed.*
- 3) *Graph paper will be supplied on request.*
- 4) *Figures to the right indicate marks.*

SECTION-I

- Q1) a)** The following table gives the frequency distribution of the weights of 100 articles in a consignment:

Weight (in gm)	200- 240	150- 290	300- 340	350- 390	400- 440	450- 490	500- 540	550- 590	600- 640
No. of articles	4	5	12	23	31	10	8	5	2

Draw the 'histogram' and 'more than o give' curve for it and estimate the median and mode from the graphs. **[6]**

- b) Find the Karl Pearson's correlation coefficient between the age and playing habit from the following student record:

Age (in years)	15	16	17	18	19	20
No. of students	250	200	150	120	100	80
Regular players	200	150	90	48	30	12

Also calculate the probable error and point out if the coefficient of correlation is significant. **[6]**

- c) In a sample of 500 children, 200 came from higher income group and rest from the lower income group. The number of intelligent children in these groups respectively were 25 and 100. Calculate the coefficient of association between intelligence and economic status and comment on the result. **[6]**

P.T.O.

- Q2) a)** The table below gives the employee strength in the companies located in a small IT park. Find the mean number of employees in a company and its standard deviation. Also, estimate the coefficient of variation for the data.

Employee Strength	00-10	10-20	20-30	30-40	40-50	50-60	60-70
No. of companies	10	15	25	25	10	10	5

[6]

- b) Find out the two regression lines for the following data about the usage of fertilizer (in quintals) and the productivity (in metric tons)

	Arithmetic mean	Std. Deviation
Fertilizer used	35.6	10.5
productivity	84.8	8.5

Correlation coefficient, $r=0.62$

Estimate the productivity if the amount of fertilizer used is 30 quintals. How much standard error can you expect in these estimates? [6]

- c) A company has two plants to manufacture scooters which are then transported to the central distribution centre. Plant I manufactures 80 percent of the scooters and plant II manufactures 20 percent. At plant I, 85 out of 100 scooters are rated standard quality or better. At plant II, only 65 out of 100 scooters are rated standard quality or better.
- What is the probability that a scooter selected at random at the distribution centre is of standard quality or better?
 - What is the probability that a scooter selected at random at the distribution centre come from plant I, if it is known that the scooter is of standard quality or better? [6]

- Q3) a)** A machine produces an average of 20% defective bolts. A batch is accepted if a sample of 5 bolts taken from that batch contains no defectives and is rejected if the sample contains 3 or more defectives. In other cases, a second sample is taken for inspection. What is the probability that a second sample is required? [6]

- b) In a trivariate distribution, $\sigma_1=2$, $\sigma_2=\sigma_3=3$, $r_{12}=0.7$, $r_{23}=r_{31}=0.5$. Find the coefficients: $r_{23.1}$, $R_{2.13}$ and $b_{12.3}$. [6]

- c) Write a note on:
Measures of Dispersion [6]

OR

Association of Attributes.

SECTION-II

- Q4) a)** A company has three factories which supply their products to four warehouses. Monthly capacity of the factories are 120,200 and 180 units respectively. Monthly requirements of the warehouses are 100,140,110 and 150 respectively. Unit shipping costs are as follows:

Factories	Warehouses			
	P	Q	R	S
A	15	–	30	20
B	–	24	12	15
C	15	15	–	20

Shipments from A to Q, B to P and C to R are not possible due to certain unavoidable reasons. Find the optimum distribution program to minimise the total shipping cost. Give alternate solutions if any. **[9]**

- b)** Patients arrive at a clinic according to Poisson distribution at the rate of 8 patients per hour. The examination time per patient is exponential with mean of 5 minutes.
- i) What is the probability that a new arriving patient does not have to wait?
 - ii) What is the average number of patients waiting to get themselves examined?
 - iii) What is the average time spent by a patient in the clinic?
 - iv) What is the average number of waiting patients in a non-empty queue? **[8]**

- Q5) a)** A newspaper vendor has to decide how many copies of a particular magazine he should buy for the coming month. Each magazine costs him Rs. 5. Which he sells for Rs10. At the end of the month the unsold magazines are thrown away. The demand distribution of the magazines is as follows.

No. of copies demanded : 10 11 12

Probability : $\frac{1}{3}$ $\frac{1}{3}$ $\frac{1}{3}$

Construct a pay off-table. Use maximin and Hurwitz criteria (with $\alpha=0.6$) to decide the number of copies he should stock. Which number of copies will maximise the expected pay off. **[9]**

- b) A department head has an assignment consisting of three tasks to be performed with four subordinates. The subordinates differ in efficiency. The estimates of time in hours each subordinate would take to perform the tasks is given below in the matrix. How should he allocate the tasks to each subordinate so as to minimise the total labour cost at an estimated rate of Rs. 10 per man hours required to complete the tasks. What is the total labour cost? Also state which subordinate will remain idle. [8]

Subordinates	Tasks		
	X	Y	Z
A	10	21	16
B	14	28	7
C	36	27	16
D	19	31	21

- Q6) a) The pay-off table for a zero sum game between A and B is shown below, where A is playing to maximise his pay off. Solve the game for the optimal strategies of the two players and for the value of the game.

		Player B			
		B ₁	B ₂	B ₃	B ₄
Player A	A ₁	150	-18	78	90
	A ₂	6	102	54	70
	A ₃	130	-30	78	80

[9]

- b) A market-survey is made on three brands of break-fast foods. Dawn, Sky and Zing. Every month a customer purchases a new package, he may buy the same brand or switch to another. The following estimates of the shifts (in percentage) are obtained.

		Next Brand		
		Dawn	Sky	Zing
Present Brand	Dawn	70	20	10
	Sky	30	50	20
	Zing	30	30	40

[8]

At this time it is estimated that 30% of customers buy Dawn, 20% buy Sky and 50% buy Zing.

- Construct first and second step transition matrix.
- What will be the distribution of the customers one and two months later?

202: FINANCIAL MANAGEMENT

(2008 Pattern) (Semester - II)

Time : 3 Hours]

[Max. Marks :70

Instructions to the candidates:

- 1) *Q. No. 1 is compulsory.*
- 2) *Solve any two questions from section - I and section - II each.*
- 3) *Figures to the right side indicate full marks.*
- 4) *Use of non-programmable calculator is allowed.*

SECTION - I

Q1) What is business finance? Explain the functions of financial system of an organization. **[10]**

Q2) What do you understand by analysis of financial statement? Discuss the limitations of financial statement? **[15]**

Q3) Described the objectives of financial management. Explain the need and importance of financial planning and forecasting for effective financial control in business organization. **[15]**

Q4) Explain the dividend policy considerations. Discuss various procedural formalities involved in payment of dividend. **[15]**

Q5) Write short notes on any three of the following: **[15]**

- a) Cost of capital
- b) Cash budget
- c) Fund flow statement
- d) Corporate finance
- e) Trading on equity.

P.T.O.

SECTION - II

Q6) You are required to prepare a statement showing the working capital for a level of activity of 1, 56,000 units of production for ZYX Co. The following information is available for your consideration. **[15]**

	Per Units (Rs.)
a) Raw Materials	90
Direct labour	40
Overheads	<u>75</u>
Total Cost	205
Profit	<u>60</u>
Selling Price per Unit	265

- b) i) Raw materials are in stock on an average one month.
- ii) Material in Process 50% complete on an average two weeks.
- iii) Finished goods are in stock on an average one month.
- iv) Credit allowed by suppliers one month.
- v) Time lag in payment from debtors two months.
- vi) Lag in payment of wages $1\frac{1}{2}$ week.
- vii) Lag in payment of overheads one month.
- viii) 20% of the output is sold against cash.
- ix) Cash in hand and bank expected Rs. 60,000.

Assume that the production is carried on evenly throughout the year, wages and overheads accrue similarly and a time period of 4 weeks is equivalent to a month.

Q7) Calculate the operating leverage, financial Leverage and combined leverage from the following details. **[15]**

Selling Price per units	Rs.	150
Variable cost per unit	Rs.	100
Fixed costs	Rs.	6,00,000
Production & sales		20,000 units

The capital structure of the company under alternate financing plan is as follow:

Particulars	Plan I Rs.	Plan II Rs.
Equity Capital	20,00,000	10,00,000
16% Debentures	10,00,000	20,00,000
Total	30,00,000	30,00,000

Q8) Assume that a firm has owner's equity of Rs. 1,00,000 the ratios of the firm are as follows: **[15]**

Short debt to total debt	= 0.4
Total debt to owner's equity	= 0.6
Fixed assets to owner's equity	= 0.6
Total assets turnover	= 2 times
Inventory turnover	= 8 times

Complete the following Balance Sheet with the help of information given above;

Balance sheet

Liabilities	Amount (Rs.)	Assets	Amount (Rs.)
Short term debt	-	Cash	-
Long term debt	-	Inventory	-
Total Debt	-	Total Current Assets	-
Owner's equity	-	Fixed Assets	-
Total Capital & Liabilities	-	Total Assets	-
	-		-

Q9) ABC Company, whose cost of capital is 10%, is considering two mutually exclusive Proposals 'X' and 'Y', the details of which are as follows: **[15]**

Particulars	Project 'X' (Rs.)	Project 'Y' (Rs.)
Investments	15,00,000	15,00,000
Cash inflows at end of the		
Year- 1	1,00,000	6,50,000
2	2,50,000	6,00,000
3	3,50,000	6,00,000
4	5,50,000	5,75,000
5	7,50,000	5,25,000
Total	20,00,000	29,50,000

Calculate:

- a) Payback Period.
- b) Net Present Value @ 10%.
- c) Profitability index @ 10%.
- d) Internal Rate of Return.

Q2) What is MIS? Discuss Need and Role of MIS in Modern Business Scenarios. **[10]**

Q3) Define information? Discuss “Information as Strategic Resource for decision Making”. **[10]**

Q4) Explain the concept of Data Mining. Discuss importance of Data Mining with reference to banking industry. **[10]**

Q5) Explain “Prototyping Model” as system development approach. **[10]**

Q6) Explain the concept of Decision Support System. Compare DSS with EIS. **[10]**

Q7) Write short note’s on (Any three): **[15]**

- a) Types of computer networks.
- b) Artificial Intelligence
- c) Ethical and social dimensions to MIS
- d) IT enabled Services.

301 : BUSINESS POLICY AND STRATEGIC MANAGEMENT

(2008 Pattern) (Semester - III)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Question No. 7 is compulsory.*
- 2) *Attempt Any 3 Questions from question no. 1 to 6.*
- 3) *Figures to the right indicate full marks.*

Q1) Describe the process of Strategic Management. Draw a neat diagram showing the different elements in the strategic management process. **[15]**

Q2) How is Strategic Advantage Profile prepared? Explain with examples. **[15]**

Q3) Discuss with reasons why related and unrelated diversification is adopted? What are the risks involved in diversification? **[15]**

Q4) Discuss why is strategy evaluation and control important to organizations?[15]

Q5) Explain the following terminologies: **[15]**

- a) E-Commerce Business Model and Internet strategies for traditional business.
- b) Key success factors in E-Commerce.

Q6) Write short notes on Any Two: **[15]**

- a) Synergy and Dysergy.
- b) Resource Allocation.
- c) Mature and Declining industries.
- d) Functional Plans and Policies.

P.T.O.

WHAT LIES IN STORE FOR THE RETAILING INDUSTRY IN INDIA?

India is not known as the 'nation of shopkeepers', yet it has as many as 5 million retail outlets of all shapes and sizes. Some other optimistic estimates place the number at as high as 12 million. Whatever be the number, India can claim to have the highest number of retail outlets per capita in the world. But almost all of these are small outfits occupying an average of 500 square feet in size, managed by family members, having negligible investment in land and assets, paying little or no tax and known as the *kirana dukaan* ('mom and pop' stores in the U.S. or the corner grocery stores in the U.K.). These outlets offer mainly food items and groceries - the staple of retailing in India. Customer contact is personal and one-on-one, often running through generations. There are a limited number of items offered often sold on credit - the payment to be collected at the end of the month. The quality of items is standard, with moderate pricing.

There is great hype about the growth and prospects of organised retailing industry in India. It must be noted, however, that organised retailing constitutes barely 2 per cent of the total retailing industry in India, the rest 98 per cent being under the control of the unorganised, informal sector of *kirana dukaans*. Market research agencies and consultants come up with encouraging forecasts about this segment of the retailing industry. For instance, A.T. Kearney's Global Retail Development Index ranks 30 emerging countries on a 100-point scale. Its 2007 - ranking places India at number one for the third consecutive year, with 92 points, followed by Russia and China. The size of the organised retailing industry is estimated at US \$8 billion and projected to grow at a compound annual growth rate of 40 per cent to US \$22 billion by 2010. Overall, the Indian retailing industry is expected to grow from the current US \$350 billion to US \$427 billion by 2010 and US \$635 billion by 2015.

The economic environment in the post-liberalisation period after 1991, has created several factors that have made this high growth of the organised retailing industry possible. India's impressive economic growth rate of 9 per cent is the prime driver of increasing disposable incomes in the hands of the consumer. The growing size of the consuming class in India, in tandem with the entry and expansion of the organised sector players in recent years, has set the pace for corporate investment in retail business. Practically, every major Indian business group is looking for opportunities in the growing retailing industry. Among them are the big names in the Indian corporate sector such as the AV Birla group, Bharti, Godrej, ITC group, Mahindras, Reliance, Tatas and the Wadia group.

The international environment presently is replete with examples of the fast-paced growth of the retailing industry in many developing countries around

the world. In the post-liberalisation period, there is more openness and awareness of the international developments among Indians. The ease of travel abroad and the exposure through television and Internet have increased the awareness of the urban Indian consumer to the convenience of modern shopping. The modern retail formats thus have gained acceptance in India. Carrefour, Tesco and Wal-Mart are the international players already operating in India, with several others like Euroset, Supervalu and Starbucks having plans to enter soon. These international companies bring to India the latest developments in the retailing industry and help to set up a benchmark for the domestic players.

The market environment is one of the most significant in terms of the growth and prospects of the retailing industry in India. In terms of geography, the reach of the organised retailing industry has been growing. In addition to the mega-cities of Mumbai and Delhi, cities such as Bangalore, Pune, Hyderabad, Kolkata and Chennai are also witnessing a boom in organised retail activity. Retailers are now trying to focus on smaller cities such as Nagpur, Indore, Chandigarh, Lucknow or Cochin. There are interesting possibilities regarding the retail formats. Traditionally, street carts, pavement shops, *kirana* stores, public distribution systems, kiosks, weekly markets and such other formats unique to India, have been in existence for a long time. At present, most organised retail formats are imitations of those used abroad. These include hyper and supermarkets, convenience stores, department stores and specialty chains. Among these formats, a notable trend has been the development of integrated retail-cum-entertainment centres and malls as opposed to stand-alone developments. Besides these, there are some attempts at indigenous formats aimed at the rural markets such as those by ITC's *Choupal Sagar*, DSCL's *Hairyali Kisaan Bazaar* and Godrej group's *Godrej Aadhar*. Pricing is an important issue in the retailing Industry. Generally, the bulk buying yield lower costs of procurement for the big retailers-a part of which they pass on to the customer in the form of lower prices. In food retailing, for instance , there is a clear trend of low prices being the determining factor in purchase decisions by the cost-conscious Indian consumer. But, lower prices may not be a major issue with the higher-income groups that may place greater emphasis on the quality of products and retail service, store ambience and convenience of shopping. For the majority of Indian consumers however, price is likely to remain a significantly important issue in the purchase decision. Competition has already accelerated with many Indian business groups having entered or likely to enter this booming industry.

The political environment in India is ambiguous in terms of its support to the organised retailing industry. This is obvious as the unorganised sector employs nearly 8 per cent of the Indian population and is widely spread geographically.

The over whelming presence in terms of 98 per cent of the total retailing industry also is a significant political issue. In a democracy, the politics of numbers makes it imperative for the political class to adopt an ambiguous stand. In some cases, politicians have acted in favour of the unorganised sector by disallowing the setting up of large retail outlets in some states. Overall, however, there is ambiguity as there are several environmental trends in favour of the development of the organised retailing industry.

In the regulatory environment, there has been a gradual easing of the restrictions albeit at a slow pace, in view of the ambiguous political stance as indicated above. Interestingly, the retailing industry is still not recognised as an industry in India. Foreign direct investment of up to 100 per cent is not permitted though it is possible for foreign players to enter through the routes of franchise agreements, cash-and-carry wholesale trading and strategic licensing agreements. Another problem area is of the real estate laws at the level of state governments that are yet to be clear on the issue of allowing large stores. Restructuring of the tax structure for the retailing industry is another regulatory issue requiring governmental action. However, tariffs on imported consumer items have been gradually aligned to meet the prescribed WTO norms and reduction of import restrictions are likely to help the growing organised retailing industry.

The socio-cultural environment offers many interesting insights into the changing tastes and preferences of the urban and semi-urban Indian consumer. There is a large rural market consisting of nearly 720 million consumers, spread over more than 6,00,000 villages. India's consumers are young: 70 percent of the country's citizens are below the age of 36 and half of those are under 18 years of age. These people have deep roots in the local culture and traditions, yet are eager to get connected with and know the outside world. According to a DSP Merrill Lynch report, the key factor providing a thrust to the retail boom in India is the changing age profile of spenders. A group of seven million young Indians in their mid-twenties, earning over US \$5000 per year, is emerging every year. This group constitutes people who are enthusiastic spenders and like to visit the new format retail outlets for the convenience and time-saving they offer. Malls are also being perceived as not just places for shopping, but for spending leisure time and as meeting places. There has been an emergence of a combination of the retail outlet and entertainment centres having multiplexes, with food courts and video game parlours.

But there are some pitfalls too. For instance, organised retailing in India has had to deal with the misconception among middle-class consumers that the modern retail formats being air conditioned, sophisticated places are bound to be more expensive.

The supplier environment probably offers the biggest constraint on the growth of the retailing industry in India. Reaching India's consumers cost effectively is a distribution nightmare, owing to the sheer geographical size of the country and the presence of traditional, fragmented distribution and retailing networks and erratic logistics. For instance, the apparel segment that is one of the two top segments, the other being food, have had to invest in back-end processes to support supply chains. Supply chain management and merchandising practices are increasingly converging and apparel retailers are establishing collaborations with their vendors. Another area of concern is the severe shortage of skills in retailing. Human resource development for the retailing industry has picked up lately but may take time to fill the gap caused due to the shortage of personnel.

The technological environment for the organised retailing industry straddles many areas such as IT support to supply chain management, logistics, transportation and store operations. Some global retailers have demonstrated that an innovative use of technology can provide a substantial strategic advantage. The large number of store items, the diversity of sourcing and the gigantic effort required to coordinate actions in a large retail context is ideal for using IT as a support function. For instance, an innovative use of IT can help in a wide variety of functions such as quick information processing and timely decision-making, reduction in processing costs, real-time monitoring and control of operations, security of transactions and operations integration. The availability of supply chain management, customer relationship management and merchandising software can help much while performing activities such as ordering and tracking inventory items, warehousing, transportation and customer profiling.

Overall, the Indian scenario offers an interesting mix of possibilities and challenges. A successful model of large-scale retailing appropriate for the Indian context is yet to emerge. The modern retail formats accepted globally are in the process of implementation and their acceptability is yet to be established.²⁵

Questions:

- a) Identify the opportunities and threats that the retailing industry in India offers to local and foreign companies.
- b) Prepare in ETOP for a company interested in entering the retailing industry in India.

302 : MANAGEMENT CONTROL SYSTEMS

(Semester - III) (2008 Pattern)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Attempt any four questions from remaining.*
- 2) *Question No 7 is compulsory.*
- 3) *All questions carry equal marks.*

Q1) Distinguish clearly between strategic planning. Management Control & task control. Give suitable examples.

Q2) What is responsibility center? Compare

- a) Expense center and revenue center.
- b) Engineered Expense center & descretionary expense center.

Q3) Discuss with the help of examples & diagram following statement - "Balanced Score card performance measurement system attempts to create a blend of strategic measures, outcome and driver measures and internal and external measures in a balanced manner.

Q4) What are the difference in the nature of control in service industry & manufacturing industry? Explain management control system applied to insurance companies.

Q5) What is cost Audit? What are the objectives of cost audit? How does it differ from Financial Audit?

P.T.O.

Q6) Write short notes on (any two):

- a) Goal congruence.
- b) Functions of controller.
- c) Zero Base Budget.
- d) EVA Vs ROI.

Q7) A company has two divisions S_1 and S_2 , S_1 can manufacture 50,000 units per year at a variable cost of Rs.12 per unit and sale at Rs. 20 per unit. S_2 develop a new product for which a new type of part is required. The annual requirement is 50,000 units. These are two options are available to procure this new part.

- a) To purchase from external supplier at Rs 15 per unit.
- b) To get it manufactured at S_1 for which it has to give up its entire present business.

The variable cost of manufacturing a new part is Rs. 10 per unit. The S_2 also has to incur Rs 25 per unit as variable cost and shall get selling Price of Rs 60 per unit.

You are required to advice wheather S_1 should give up its existing business to manufacture new part for S_2 ? or S_2 should procure it from the open market? From S_1 point of view what should be transfer price if decided so.

**303 A:Marketing Research (Elective - I)
(2008 Pattern) (Semester - III)**

Time : 3 Hours]

[Max. Marks : 70

Instructions:

- 1) Attempt any 5 (Five) questions.*
- 2) All questions carry equal marks.*
- 3) Use of electronic calculator is permitted.*

Q1) What is Marketing Research? Discuss Scope application & limitations of Marketing research.

Q2) Draft a research proposal to study customer satisfaction of a Shopping Mall.

Q3) Discuss sampling and Non sampling error? What steps are to be taken to reduce non-sampling error.

Q4) What is Research design? How do exploratory, descriptive and causal studies differ from each other.

Q5) “A research report containing excessive information is not a good report” comment.

P.T.O.

Q6) The following information is obtained concerning an investigation of 50 ordinary shops of small size:

Shops Run by	Shops located in		Total
	Urban Area	Rural Area	
Men	17	18	35
Women	3	12	15
Total	20	30	50

Can it be inferred that shops run by women are relatively more in rural areas than in urban areas? use chi-square (χ^2) test.

(Given the critical value of chi-square for 1 d.f, 5% level of significance is 3.841)

Q7) Write short note (ANY TWO):

- a) Viral marketing research.
- b) Conjoint Analysis
- c) Focus group interviews.

303 B:ADVANCED FINANCIAL MANAGEMENT

(2008 Pattern) (Semester - III) (Elective - I)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Q. No. 1 is compulsory.*
- 2) *Solve any two questions from Section I and two questions from Section II.*
- 3) *Figures to the right side indicate full marks.*
- 4) *Use of non programmable calculator allowed.*

Q1) Write short notes (any TWO)

[10]

- a) Capital Rationing.
- b) Capital Asset Pricing Model (CAPM).
- c) Working Capital Management.
- d) Fund Flow statement as a tool of financial analysis.

SECTION - I

Q2) What are Accounting Standards? Briefly discuss the disclosure of Accounting Policies-related to Depreciation, Amalgamation, Earning Per Share (EPS).

[15]

Q3) What is Economic Value Added (EVA) and how it is calculated? On what factors EVA changes?

[15]

Q4) Explain in detail the Walter Model and Gordon's Model of Dividends Policy?

[15]

P.T.O.

SECTION - II

Q5) The following information has been extracted from the records of the company. **[15]**

Particulars	Cost per unit (Rs.)
Raw Materials	45
Direct Labour	20
Overheads	40
Total Cost	105
Profit	15
Selling Price	120

Additional Information:

- a) Raw materials are in stock on an average for two months.
- b) Materials are in process on an average for one month. The degree of completion is 50% in respect of all element of cost.
- c) Finished goods stock on an average is for one month.
- d) Time lag in payment of wages and overheads is 1.5 weeks.
- e) Time lag in receipt of proceeds from debtors is 2 months.
- f) Credit allowed by supplier is one month.
- g) 20% of the output is sold against cash.
- h) Cash balance is Rs. 1,00,000
- i) The output produced is 1,44,000 units in the next year.

You are required to prepare a statement showing the Working Capital Requirements of the company.

Q6) A company expects a Net Operating Income of Rs. 1,00,000. It has Rs. 5,00,000, 6% Debentures. The overall capitalization rate is 10%. Calculate the market value of firm and the Equity capitalization rate according to Net Operating Income (NOI) approach if the debenture debt is increased to Rs. 7,00,000 keeping the overall capital same. **[15]**

Q7) From the following information of ABC Ltd. Prepare Fund Flow Statements. **[15]**

	Amount in Rs.			Amount in Rs.	
Liabilities	31.3.07	31.3.08	Assets	31.3.07	31.3.08
Share Capital	10,00,000	11,00,000	Goodwill	50,000	40,000
Debentures	5,00,000	3,00,000	Land & Building	4,20,000	6,60,000
General Reserve	2,00,000	2,00,000	Plant & Machinery	6,00,000	8,00,000
Profit & Loss A/c	1,10,000	1,90,000	Stocks	2,50,000	2,10,000
Income Tax Provision	40,000	1,10,000	Debtors	3,00,000	2,40,000
Creditors	50,000	40,000	Cash	3,00,000	24,000
Bills Payable	20,000	30,000	Preliminary Expenses	30,000	20,000
Total	19,50,000	19,94,000	Total	19,50,000	19,94,000

Additional Information:

- During the year 2007-08 a part of the machinery costing Rs. 7500 (accumulated depreciation was Rs. 2,500) was sold for Rs. 3,000.
- Dividend of Rs. 1,00,000 was paid.
- Income tax paid was Rs. 50,000.
- Depreciation provided for Land & Building Rs. 10,000 and Plant & Machine Rs. 50,000.

Q8) Form the following particulars state which project is preferred. Two alternative Projects are available (Project X and Project Y) each costing Rs. 10,00,000.

[15]

Year	Project X Rs.	Project X Rs.
1	4,00,000	5,00,000
2	3,50,000	4,00,000
3	2,50,000	3,00,000
4	2,00,000	3,00,000

The company has a target return on capital (riskless discount rate) of 10%. The management considers risk premium rate at 2% and 8%, respectively, for Project X and Y. Risk adjusted discount rate shall be Riskless Discount rate + Risk Premium Rate.

Discount Factor @ 12%	0.863	0.797	0.712	0.615
Discount Factor @ 18%	0.847	0.718	0.609	0.516

Q1) Define the following terms under the Income Tax Act, 1961. **[10]**

- a) Advance tax.
- b) Deduction at source.
- c) Previous income.
- d) Agricultural income.

Q2) From the following P & L A/c calculate income from business. **[15]**

To rent & taxes	45,000	By gross profit	2,25,000
To Dep. on machinery	8,000	By Income from other sources	1,50,000
To dep. on furniture	2,000	By income from capital gain	1,00,000
To purchase of Motor car	50,000	By miscellaneous income	1,25,000
To car expenditure	3,000		
To advertisement (cash)	25,000		
To net profit	4,67,000		
	<u>6,00,000</u>		<u>6,00,000</u>

P.T.O.

- a) Allow Rs. 5,000 as dep. on machinery.
- b) 50% of motor car expenses relates to personal use.
- c) Miscellaneous income is approved by IT authority as business income.
- d) Motor car has no depreciation.

Q3) From the following particulars of Mr. Ashok an employee with Tata Motors Ltd., find out his income from salary for A.Y. 2015-16. **[15]**

- a) Basic salary Rs. 30,000 p.m.
- b) Dearness allowance Rs. 6,000 p.m. (part of salary).
- c) Bonus @ 20% p.a of salary (Basic + D.A.).
- d) Entertainment Allowance Rs. 9,000 p.m.
- e) Employer's contribution to RPF @ 13%.
- f) Interest credited on RPF balance @ 12% Rs. 24,000 p.a.
- g) Free furnished quarter was allotted to him by the employer at Pune w.e.f. 1/5/2014 which he could occupy on 1/6/2014 onwards. Fair rental value Rs. 5,000 p.m., cost of furniture Rs. 30,000/-.
- h) Gas, Electricity and water charges Rs. 5,000 p.a. paid by the employer.
- i) Reimbursement of his educational expenses Rs. 10,000.
- j) Reimbursement of medical expenses Rs.12,000 p.m.
- k) His contribution to R.P.F. Rs. 4,000 p.a.
- l) A motor car (cc of the engine 1.8 litres) is provided to Mr. Ashok. The motor is used both for the private and official expenses on maintenance of private use is borne by Mr. Ashok Rs. 900 p.m.
- m) Insurance premium on his own policy Rs. 4,200 (Four Thousand two hundred) p.a. and on his wife's policy Rs. 3,600 p.a. are paid by the employer.

Q4) Mr. Ravi furnishes the following particulars in respect of house property owned by him in Kolkata. **[15]**

Municipal value-Rs. 2,00,000/-

Fair rent-Rs. 2,40,000/-

Actual rent (per month)-Rs. 21,000/-

Municipal tax paid during the year-Rs.20,000/-

The tenant vacated the property on 31/10/14 and thereafter the property was let out for Rs.25,000/- p.m.

Mr. Ravi couldn't realise the rent for the month of September & October 14 (He did not receive any rent).

- a) Compute the annual value of the property for A. Y. 2015-16.
- b) What will be your answer if the unrealised rent (rent not received) is one month instead of two months?

Q5) Mr. Ramesh submits the following information about his income for the previous year 2014-15. **[15]**

Basic salary Rs. 1,20,000

Dearness allowance (Considered for retirement benefits) Rs. 40,000

Commission Rs. 6,000

Children Education Allowance (For two children) Rs. 7,200

Contribution to statutory PF

(Matching Contribution by Employer) Rs. 20,000

Income from other sources Rs.86,000

Find out the net income of Ramesh for the relevant assessment year.

Q6) a) What are the provisions for carry forward and set off losses? **[10]**

b) State any five income exempt from tax. **[5]**

Q7) a) What is capital gain? Explain its types. **[7]**

b) Define salary and explain the permissible deductions from salary income u/s 17 of the income Tax Act, 1961. **[8]**

COMPUTER SPECIALISATION

304C: Relational Database Management Systems

(2008 Pattern) (Semester-III) (Elective-II)

Time : 3 Hours]

[Max. Marks :70

Instructions to the candidates:

- 1) *State your assumptions clearly wherever necessary.*
- 2) *Q.1 & Q.6 . is compulsory.*
- 3) *Solve any 3 questions from the remaining.*
- 4) *Figures to the right indicates full marks.*

Q1) a) Normalise the following document to 3NF.

[15]

Project Management Report				
Project code : PC010		Project Budget: \$ 24,500		
Project Title : Pension System				
Project Manager: M. Phillips				
Employee No.	Employee Name	Department No.	Department Name	Hously Rate
10001	A Smith	L004	IT	\$ 22.00
10030	L Jones	L023	Pensions	\$ 18.50
21010	P Lewis	L004	IT	\$ 21.00
00232	R smith	L003	Programing	\$ 26.00
Total staff on Project : 4		Average Hously Rate: \$ 21.88		

b) What are different types of keys in RDBMS.

[5]

Q2) Explain 5 Codd's Rules with examples.

[10]

Q3) Explain DDL, DML, DCL with examples.

[10]

Q4) Explain in details advantages of Relational Model Over Network and Hierarchical Model.

[10]

P.T.O.

Q5) Explain entity Relationship model in detail. **[10]**

Q6) Short notes: (Any Four): **[20]**

- a) Views with examples.
- b) SQL SET operators.
- c) Data base users.
- d) Subquery with examples.
- e) Joins with examples.
- f) DECODE FUNCTION.

(304D)-MODELING TECHNIQUES AND IT FOR OPERATIONS

MANAGEMENT (Elective-II)

Production and Materials Management Specialization

(2008 Pattern) (Semester-III)

Time : 3 Hours]

[Max. Marks :70

Instructions to the candidates:

- 1) Answer any five questions.*
- 2) Marks are indicated against each question.*

Q1) a) Explain the steps involved in modeling process. **[5]**

b) "Solutions based on model building are of little significance as the models do not depict realities and complexities of a situation of decision making in operations" Discuss the statement. **[9]**

Q2) a) Solve the following linear programming problem using simplex method. **[14]**

$$\text{Maximize } Z = 4X + 6Y$$

Subject to the constraints:

$$X + 2Y \leq 40$$

$$4X + 5Y \leq 130$$

$$\text{and } X \geq 0, Y \geq 0$$

Q3) What is Decision Tree diagram? Explain with an example how decision tree is constructed and Expected Monetary Value calculated. **[14]**

Q4) Explain the characteristics of Transshipment problem. Describe with an illustrative example how a transshipment problem can be formulated as Linear Programming problem **[14]**

Q5) At a cash counter of a large retail, inter arrival time of the customers and service time for billing process is as follows: **[14]**

P.T.O.

Inter arrival Time		Service Time	
2	9	1	3
4	6	2	13
6	3	3	10
8	2	4	8
		5	6

Simulate the queue for next seven arrivals using following random Numbers:

10 21 56 74 47 33 87 For inter arrival time

65 59 02 71 26 89 30 For service time

Q6) Describe salient features of any software for Project Management you are familiar with. **[14]**

Q7) Find the sequence that minimizes the total time in performing following jobs on three machines in order of A-B-C. Calculate idleness at each machine. Processing time in hours are given in the table below. **[14]**

P

JOB	U	I	II	III	IV	V
Machine A	9	10	6	7	11	
Machine B	5	6	2	3	4	
Machine C	4	7	8	6	5	

Q8) Write short notes on an two of the followings: **[14]**

- a) Goal programming
- b) Sensitivity analysis in linear programming
- c) Concept of ERP
- d) Priority Sequencing rules

(305 A) : DISTRIBUTION & RETAIL MANAGEMENT

(Marketing Management Specialization)

(2008 Pattern) (Semester - III) (Elective Paper - III)

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *Attempt two questions from Section-I & three questions from Section - II.*
- 2) *All questions carry equal marks.*

SECTION - I

Q1) “Marketing channels are necessary for any business” comment. Describe the various functions of distribution channel.

Q2) Describe Intensive, selective and Exclusive distribution strategies, Desing intensive distribution strategy for a flavoured milk.

Q3) What are the functions of a ‘Wholesaler’? Discuss the factors you will consider for their selection. Justify your answer with suitable examples.

SECTION - II

Q4) Discuss the concept, importance and functions of retailing. In brief compare Indian Vs. Global retail scenario.

Q5) Explain various components of retail store administration. Give examples.

Q6) Define Retail Merchandising and explain steps involved in merchandising planning.

Q7) What are channel conflicts? Explain various reasons for channel conflict and ways to minimize them.

Q8) Write short notes on (Any Two):

- a) Electronic Payment System.
- b) Retail location.
- c) store design.

Time : 3 Hours]

[Max. Marks : 70

Instructions to the candidates:

- 1) *All questions are compulsory.*
- 2) *Write your assumptions.*

Q1) Consider the following tables and solve the following queries(Any FIVE):**[10]**

Student (Roll no, Name. Class)

Book (Bookid, Title, Price, Author, Available)

Transaction (Roll no, Bookid, Date of Issue)

- a) Find the total number of books in Library.
- b) Add address column to the student table.
- c) Display name of all MBA students in descending order.
- d) Display roll nos of the student to whom books were issued on 20th April 2013.
- e) Display the titles of the books that has price below ₹.300.
- f) Rename the table student to stud.

Q2) Write PLISQL procedure to accept two numbers as parameter and display all even numbers between them. **[10]**

OR

Write PLISQL function which will accept Bookid as parameter and returns corresponding price. (Use Book table given in Q.1).

Q3) Write notes on (Any THREE): **[15]**

- a) DML
- b) Joins in oracle.
- c) Aggregate function in SQL
- d) String function in SQL.
- e) Report writing commands in SQL.

P.T.O.

Q4) Explain the following properties (Any FIVE) : **[10]**

- a) Wordwrap of TextBox.
- b) Drop Down style of Combo box.
- c) Interval of timer.
- d) Start position of form.
- e) Selection mode of list box.
- f) Auto size of label.

Q5) Write a button click event to display GCD of two numbers that are accepted in text boxes. Draw appropriate GUI. **[10]**

OR

Write a button click event to display factorial of the number that is accepted in a text box. Draw appropriate GUI. **[10]**

Q6) Write notes on (Any THREE): **[15]**

- a) DAO and ADO.
- b) DB combobox and DB Listbox.

Q6) CASE STUDY

Union Carbide at Bhopal

On Sunday, December 3, 1984, the peaceful life of a U.S. corporate giant was joltingly disrupted. The Union Carbide plant at Bhopal, a city less than 400 miles from New Delhi, India, had leaked poisonous gas into the air. Within one week over 2,000 people died and more remained critically ill. Over 100,000 people were treated for nausea, blindness, and bronchial problems. It was one of history's worst industrial accidents.

Union Carbide is America's 37th largest industrial corporation, with more than 100,000 employees, and an annual sales volume of over \$9 billion. The firm is active in petrochemicals, industrial gases, metals and carbon products, consumer products, and technology transfers.

Union Carbide operated 14 plants in India. Total Indian operations accounted for less than 2 percent of corporate sales. In spite of a policy by the Indian government to restrict foreign majority ownership of plants, Union Carbide owned 50.9 percent of the Bhopal plant. This special arrangement was granted by the government because the plant served as a major technology transfer project. In order to achieve the goal of technology transfer, management of the plant was mostly carried out by Indian nationals. General corporate safety guidelines applied to the plant, but local regulatory agencies were charged with enforcing Indian environmental laws. Only three weeks before the accident, the plant had received an "environmental clearance certificate" from the Indian State Pollution Board.

The accident resulted in wide public awareness in the United States. A poll showed that 47 percent of those questioned linked Union Carbide's name to the Bhopal disaster. The direct impact of this awareness on Union Carbide's business remains uncertain. Most U.S. consumers do not connect the Union Carbide name to its line of consumer products, which consists of brands such as Energizer, Glad, and Presto. Industrial users, on the other hand, are highly aware of Union Carbide's products. One area that could be particularly affected is that of technology transfer, which in 1983 accounted for 24 percent of Union Carbide's revenues. The firm has concentrated increasingly on that sector, selling mainly its know-how in the fields of engineering, manufacturing, and personnel training.

THE PUBLIC REACTION

Internationally, the reaction was one of widespread consumer hostility. Environmentalists demonstrated at Union Carbide plants in West Germany and Australia. Some facilities were firebombed, most were spray painted.

Plans for plants in Scotland had to be frozen. The operation of a plant in France was called into question by the French government.

Major financial repercussions occurred as well. Within a week of the accident, Union Carbide stock dropped by \$10, a loss in market value of nearly \$900 million. A \$1.2 billion line of credit was frozen.

In the ensuing debate of the Bhopal disaster, three basic issues were highlighted – responsible industrial planning, adequate industrial safety measures, and corporate accountability. In terms of industrial planning, both Union Carbide and the Indian government were said to have failed. The Indian subsidiary of Union Carbide did little to inform workers about the highly toxic methyl isocyanate (MIC) the plant was producing and the potential health threat to neighboring regions. When the accident occurred, the subsidiary's management team reportedly resisted the parent company's instructions to apply first aid to victims for fear of generating widespread panic within the corporation and the region. The Indian government, on the other hand, seemed to regard technology transfer to be a higher priority than public safety. The local government readily approved construction of the plant with little medical and scientific investigation into its biological effects on the environment and on people.

The second issue was the absence of a "culture of safety" among Indian technicians, engineers, and management. From the very beginning, the project lacked a team of experienced maintenance personnel who would have recognized the need for higher safety measures and, more important, a different choice of technology. When the entire Indian government wholeheartedly approved the import of the most advanced chemical production facility in any developing country without qualified personnel to handle the material and without insight into appropriate precautionary measures in case of an accident, the seeds were sown for potential disaster.

The third area of interest in the Bhopal incident is that of corporate accountability. There are three general norms of international law concerning the jurisprudence of the home government over the foreign subsidiary:

- a) Both state and nonstate entities are liable to pay compensation to the victims of environmental pollution and accidents.
- b) The corporation is responsible for notifying and consulting the involved officials of actual and potential harm involved in the production and transport of hazardous technologies and materials.
- c) The causer or originator of environmental damage is liable to pay compensation to the victims.

These and other developing norms of international law serve to make transnational corporations more responsible to the region of their operation.

COMPENSATION TO VICTIMS

Five days after the incident the first damage suit, asking for \$15 billion, was filed in U.S. Federal District Court. Since then more than 130 suits have been filed in the United States and more than 2,700 in India. Union Carbide offered to pay \$300 million over a period of 30 years to settle the cases before the courts in the United States and India. The Indian government rejected the offer, claiming that the amount was far below its original request of \$615 million. By 1986 most U.S. lawsuits had been consolidated in the New York Federal Court. In May 1986, however, the judge presiding over the collective Bhopal cases ruled that all suits arising out of the accident should be heard in the Indian judicial system, claiming that "India is where the accident occurred, and where the victims, witnesses and documents are located." While this decision appeared to benefit Union Carbide because of lower damage awards in India, the judge explicitly stated that (1) Union Carbide (USA) and its Indian affiliate will have to submit to the jurisdiction of the Indian court system, (2) Union Carbide must turn over all relevant documents to the plaintiffs' lawyers in India as they would if in the United States, and (3) Union Carbide must agree to whatever judgment is rendered in India. This decision had a major effect on Union Carbide (USA) because (1) both Union Carbide (USA) and its Indian subsidiary now had to answer to the Indian court and (2) the entire company's assets had become involved.

In India, the class suit traveled from the Bhopal district court to the Madhya Pradesh High Court and finally to the Indian Supreme Court, where it stood as of July 1989. Although a settlement agreement was reached between Union Carbide and the Indian government, the descendents of the 2,000 victims were not satisfied. Several victims' consumer groups and public-interest lawyers filed petitions contesting the authority of the government to handle the lawsuit on behalf of the victims' descendents. The petitions claim that the government has no right to represent the victims because governmental negligence caused the accident in the first place and the government should be as much a target as Union Carbide in the suit itself. If the Indian Supreme Court were to uphold this rationale, then the government would be unable to settle on the victims' behalf, thereby nullifying the agreed amount. Until further action can be taken, the Supreme Court of India has ordered the government to issue monthly compensation checks of \$50 to the descendents of victims.

The lessons learned? Several chemical companies have reduced the size of their storage tanks of toxic materials while others have cut their inventories by as much as 50 percent. Many have provided information to the communities in which they manufacture. Some have even invested in risk assessment studies of their operations of hazardous materials.

Questions for Discussion

- 1) How could Union Carbide have planned for an event such as Bhopal?
- 2) How would such planning have improved corporate response to the disaster?
- 3) In general, should joint venture partners absorb part of the blame and cost when accidents occur?
- 4) Which other firms are exposed to similar risk.
