

**S.E.(Computer Engineering)**  
**MICROPROCESSOR**  
**(2019Pattern) (Semester-II)**

1. Explain LDT descriptor.
2. Difference between GDT and LDT
3. Write short note on segmentation.
4. What is CPL DPL and RPL?
5. Explain paging.
6. Write short note on CALLGATE.
7. Different operating modes of 80386.
8. Explain different exception condition.
9. What is TSS? Explain in details.
10. Explain architecture of Microcontroller.
11. Write short note on IDT.
12. Difference between Microcontroller and Microprocessor.
